

advanced & natural treatments

The most technology advanced, safest, and effective treatment for skin rejuvenation and hair loss today.

PRF injections and micro-needling are used to infuse facial tissues and hair follicles with regenerative growth factors and cells that stimulate, repair and rejuvenate damaged areas within the body.

Since no additives are used, it forms a "super" blood clot with significantly elevated concentrations of regenerative cells and growth factors capable of stimulating healing. The PRF method accumulates up to 6-8 times more platelets and leukocytes when compared to whole blood. These cells then release more growth factors and promotes quick healing, resulting in a low downtime.

PRF PROCEDURE

FAQ

HOW LONG DOES THE PROCEDURE LAST?

The entire procedure takes between 15-30 minutes. Ask your doctor if you have questions.

IS THE PROCEDURE PAINFUL?

The procedure is virtually painless and relies on a simple blood draw utilized in everyday blood labs.

HOW DOES BIO-PRF REJUVENATE THE SKIN?

When tissues are required to heal, they need certain proteins and growth factors that stimulate healing. These are naturally found in the human body. The Bio-PRF method produces up to 6-8 times more regenerative cells when compared to whole blood. That means more growth factors, more ways to fight infections, and reducing post-op pain naturally.

Ask your provider about PRF injections and PRF microneedling today.

Patient's Guide

PRF

Platelet-Rich Fibrin
Facial Aesthetics

beauty from within

Use your body's own natural and powerful healing proteins to rejuvenate skin, treat hair loss and speed recovery. With a simple blood draw, a concentration of natural growth factors in your own blood can be used to stimulate and treat your skin.

PRF

Platelet-Rich Fibrin
Facial Aesthetics

beauty from within

SIMPLE, EFFECTIVE, AND 100% NATURAL

- Encourages production of collagen
- Treats acne scarring
- Rejuvenates skin
- Removes fine wrinkles and tightens loose skin
- Minimally invasive
- Downtime of less than 24 hours
- Improves skin texture and tone
- No chemicals or additives

WHAT IS PLATELET RICH FIBRIN (PRF)?

PRF is the most technologically advanced, safest, and effective treatment for skin rejuvenation and hair loss available today.

By introducing your body's own platelets back into the face and scalp, it invigorates and strengthens the existing tissues to effectively and naturally regenerate lost tissues due to aging with no added chemicals or by-products.

Platelet Rich Fibrin (PRF) is a natural rejuvenation method using your own body's powerful blood and growth factors. Blood is drawn from the patient, then the patient's blood platelets are spun at elevated speeds in a horizontal Bio-PRF machine to create concentrated and natural growth factors.

**USE YOUR OWN
BODY'S POWERFUL
REJUVENATING
PROTEINS.**

**NO ARTIFICIAL
COMPONENTS.**

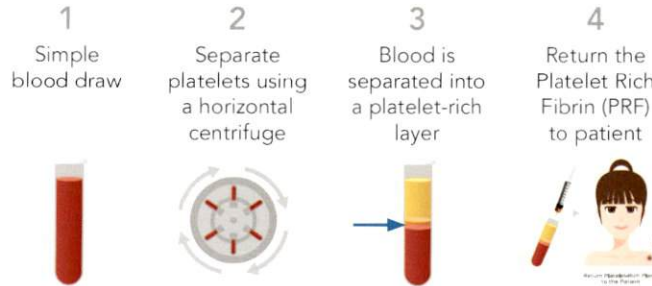

100% Natural

Facial Rejuvenation

Treatments

- Eliminate forehead wrinkles and eyebrow furrows
- Stimulate hair growth
- Erase crow's feet
- Rejuvenate and fill undereye hollows
- Restore volume in cheeks
- Soften nasolabial folds
- Fill in smoker's lines
- Soften marionette Lines
- Volumize and plump lips
- Improve and define chin and jawline
- Improve other body areas, hands, arms

HOW IT WORKS

Once PRF is injected back into the damaged areas of the body, it participates in a number of biological events that help stimulate revascularization of the skin, as well as improves the recruitment and production of new cells to replace old/damaged tissue. PRF can therefore be utilized effectively to rejuvenate the skin that has been damaged due to the rigors of aging and overexposure to sun and other chemical elements.

NORMAL ARTIFICIAL PROCEDURES

Typically utilize either dead human cadaver products or animal tissues

Fairly expensive to procure 'leading' biomaterials

Often require expensive chemicals and additives

Has healing properties that vary depending on the human tissue donor or animal species

BIO-PRF NATURAL PROCEDURES

Is completely natural and 100% safe

Safe, easy and convenient way to obtain a virtually painless blood sample

Is 100% natural, entirely holistic, and chemical free

Is entirely centered around your own body's regenerative properties
