Re: Robert Bonofiglio

To Whom it May Concern:

Vitreous Retina Macula Consultants of New York, P.C. (the "Practice") engaged an outside consulting firm to provide it with various administrative services. The consulting firm's services were primarily provided through Mr. Robert Bonofiglio during its engagement with the Practice (*i.e.* approximately February 2012 through April 2013).

Although he was not employed by the Practice, the Practice is pleased to provide this letter of reference to confirm Mr. Bonofiglio's past services and contributions, which helped the Practice position itself to handle the ever-changing health care environment. Among other things, Mr. Bonofiglio assisted in the development and implementation of updated administrative procedures, protocols and systems, as well as tackling day-to-day administrative matters. Mr. Bonofiglio further assisted the Practice in its recruitment efforts to find a Practice Administrator.

When the Practice's engagement with the outside consultant firm ended, Mr. Bonofiglio's services likewise ended.

We sincerely wish him well.

Very truly yours,

Michael J. Cooney, M.D., M.B.A.
