

Don't Need Anything but You

Take from me anything you want.
I don't need anything but you.
I would be so happy if you
Would stay with me.

People tell me
I'm acting like a fool.
I don't care what they say.
I only care about the way you make me feel.
When I'm with you.

Instrumental

chorus:

Oh, it would be incredible
If we lived together.
Lying in each other's arms,
Nothing could be better.
Our hearts would be so lite
They'd float just like a feather.
Carried by the winds of love
It'd fill our sails forever.

Every time I look into your eyes
See my world
The way I wanted it to be.
When we laugh
My heart's lite and free.
Obvious to me,
It was meant to be.

Instrumental

chorus:

Oh, it would be incredible
If we lived together.
Lying in each other's arms,
Nothing could be better.
Our hearts would be so lite
They'd float just like a feather.
Carried by the winds of love
It'd fill our sails forever

So, take from me anything you want.
I don't need anything but you.
I would be so happy if you
Would stay with me.
