

To See What You See

To see what you see
When you see what you see.
See what you see,
When you see through the me.

See with your eyes
And see with your ears.
See with your mind,
And see through your fears.
See when you're grasping.
See you when you yell.
See through your greed
And step out of hell.

Ah, to see what you see
When you see what you see.
See what you see,
When you see through your me.

Instrumental

See in the light and see in the dark.
Knowing the great and knowing quark.
See through emotion just status revealed.
See what you need by the way that you feel.

To see what you see
When you see what you see.
See what you see,
When you see through your me.

See your condition and all of your pain.
See if it comes from your back or your brain.
See with your heart and see with your hand.
Discover the truth, help all understand.

If you see what you see
When you see what you see.
See what you see,
When you see through the me.

See with your heart and see with your hand.
Discover the truth, help all understand.
