

TOP 5 REASONS TO GRAB YOUR .COM DOMAIN IN 2021

SHOWCASE A PROFESSIONAL E-MAIL ADDRESS

Create a professional-looking email address for your resume in under an hour. Forget @aol, @yahoo, @msn, and @hotmail. And no, @comcast, @att, and @verizon are still not professional e-mail addresses. Today's standard is @gmail and @outlook. But what would stand out is your own .COM domain name.

CONNECT TO YOUR LINKEDIN PROFILE

Display a professionally branded domain name on your resume rather than listing a lengthy LinkedIn URL. List your personalized domain name and have it automatically forwarded to your profile.

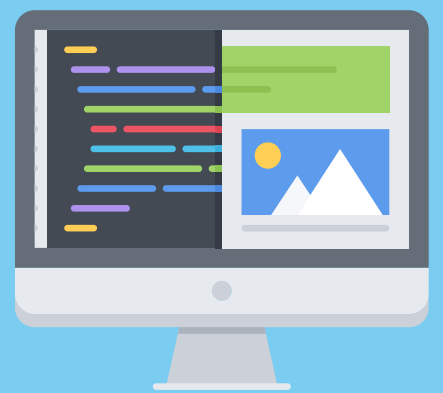

SECURE YOUR PROFESSIONAL BRAND

Register a personalized domain name focused on your brand. Display how you present yourself publicly — be it to potential employers, recruiters, clients, customers, or colleagues.

LAUNCH A RESUME WEBSITE OR ONLINE PORTFOLIO

Tell your story, define your personality, and share your narrative in the most genuine manner. It's a place to share and blend your personal and professional life along with your social media links.

LINK TO YOUR SOCIAL MEDIA ACCOUNTS

Link your domain directly to your favorite social media accounts such as YouTube, Twitter, Instagram, or a landing page (Linktree, Campsite) to showcase them.
