Re. Filtagreen's Proactive Maintenance Solution.

Dear Mr. Thiede,

Since I have been using your fuel additive, bypass oil filter, and NANO oil additive, I have been amazed at the results. Before using your Proactive Maintenance Solution, I was changing my oil every month, getting about 6.2 to 6.4 mpg. With the help of oil analysis results, I have been able to extend my oil change interval to about 8 months and my fuel consumption is now 6.9 to 7.3 mpg. The oil additive has quieted my engine and my engine idle is a lot smoother. I would recommend your products to anyone who cares about saving money and extending the life of their equipment.

Sincerely  
Intermountain Trucking
