Birthdays & Anniversaries

12—Gradeigh Heffington

17—Yvawn Crosby

Birthday

My apologies to you all for missing a birthday in the April 5th edition. Jean White turned 98 on April 2nd. Sorry I missed that. Have a wonderful day.

Camp Sign-up

If your child is entering 4th grade or up, they are eligible to go to at least one camp this summer. If your child wants to go to any of these camps, I need to know a for sure answer soon. I have talked to some and it was still on the fence. But I have to get registrations in before all the spots fill-up. Thanks—Mike

Highlights...by Jim Harris

“What Good is a Photo?”

We all have photos. Probably stacks and stacks of them. Entire photo folders filled with gleaming faces and toothy smiles.

A captured millisecond of a group, a place, an event, or an individual.

On one hand, that photo is just a snapshot of an event. It doesn't record motion, intentions, or background story.

But on the other hand, photos are extremely valuable. We take thousands of them, and we carry our cameras or iPhones around, ready to take more.

As individuals, we occasionally flip through our photo collection, reminiscing about people and places long gone. As families, we go through our photo collections to gather snapshots of a loved one or to renew old memories

Few things can do that as well as photos. The visual record of that smile, that crook of the hand, that wisp of hair, that gleam in the eye...all brought back by just a simple photo. Photos are treasures!

It's OK to invest some time in making memories...through photos, videos, drawings and the like. It will bless us, and it will bless those around us as well!

Have a great week!
