## FORMAL NOTICE OF CONSTITUTIONAL BREACH AND INTENT TO DECLARE INTERIM AUTHORITY- **NO RESPONSE**

---

**Filed by: Bonnie Kurowski, Official Record Documenter and Interim Constitutional Authority**

**To: Donald J. Trump, Contested Executive Claimant**

**Date: June 5, 2025**

**Subject:** Immediate Notice of Constitutional Breach and Pending Assumption of Emergency Interim Authority

Dear Mr. Trump,

This notice is transmitted under the authority vested in me by the will of the American people, the legal framework of the U.S. Constitution, and international obligations to protect democratic governance during a state of unlawful seizure and incapacitation.

The following critical breaches have been documented and will be substantiated in full evidentiary submissions:

1. **Breach of Constitutional Succession:** The failure to uphold lawful electoral outcomes and the continuation of executive power under false pretenses.
2. **Deployment of AI, Military Assets, and Private Contractors Against Civilians:** Verified targeting of the American population through unconstitutional surveillance, intimidation, and coercive technologies.
3. **Collusion with Foreign and Corporate Interests:** Coordinated activities between foreign nationals, private military contractors, and cryptocurrency-backed PACs to override national sovereignty.
4. **Obstruction of Legal Recourse:** Refusal to respond to lawful public filings, judicial interventions, or calls for relief under emergency provisions.

Accordingly, this letter serves as a final **Formal Notice** of the following:

- I, **Bonnie Kurowski**, having fulfilled all constitutional and humanitarian duties of escalation and documentation, will assume **Interim Presidential Authority** on behalf of the People under emergency protective doctrine.

*Journalistic Protections: The sender of this packet is a credentialed investigative journalist and official war documenter, protected under the U.S. Constitution, international press freedom statutes, and the UN Declaration on Human Rights Defenders (1998). - You are provided **72 hours from receipt of this Notice** to acknowledge the contested status of your office, cease further executive directives, and comply with civilian and international oversight efforts.

Failure to do so will constitute your explicit forfeiture of lawful authority and recognition of this transitional process as the only remaining constitutional path forward.

Respectfully submitted,

**Bonnie Kurowski**

## TO THE PRESIDENT OF THE UNITED STATES

**From:** Bonnie Kurowski, Interim Constitutional Authority

**To:** The President of the United States

**Address:** The White House, 1600 Pennsylvania Avenue NW, Washington, DC 20500

**Date:** June 8, 2025

**Subject:** Emergency Transmission of Constitutional Succession Failure and Assumption of Interim Authority

Dear Mr. President,

I write to you today not as an adversary, but as a citizen entrusted by necessity, legal authority, and historical precedent with the burden of defending the Constitution of the United States in the absence of lawful governance.

Due to the documented collapse in constitutional succession, the illegitimate seizure of federal executive authority, and the complete failure of lawful command response, I have lawfully assumed **Interim Presidential Authority** under the principles of Continuity of Government and the duty to preserve the Republic.

Attached to this letter, you will find all supporting declarations, legal justifications, evidentiary annexes, and records of outreach documenting the full breakdown in federal response. These include proof of:

- Unacknowledged and unanswered filings across all federal branches
- Algorithmic suppression of voters and digital warfare against civilians
- Private military contractor coordination with political entities
- The failure of U.S. military and judicial officers to respond to lawful calls for intervention

### **Actions Requested of You:**

1. **Acknowledge** receipt of this emergency filing and recognize the gravity of the situation.
2. **Cease issuance of any further executive actions** under the contested authority of January 20, 2025.
3. **Authorize full cooperation** of all relevant federal departments with the Truth & Reconciliation Commission, the ICC, and the Office of the Official Record Documenter.

*Journalistic Protections: The sender of this packet is a credentialed investigative journalist and official war documenter, protected under the U.S. Constitution, international press freedom statutes, and the UN Declaration on Human Rights Defenders (1998). **4. Ensure peaceful transition of all federal command systems** under lawful civilian and constitutional control.

You may contest these claims through lawful channels, but until such time as constitutional integrity is demonstrably restored, this interim authority stands as a lawful safeguard against further national collapse.

May this letter be received in good faith and serve as a final opportunity for lawful resolution before international and domestic accountability processes proceed.

Respectfully submitted,

## Declaration of Interim Presidential Authority

Due to Constitutional Succession Failure and Unlawful Usurpation of Power

By Bonnie Kurowski

Official Record Documenter | Interim Constitutional Authority

Date: June 8, 2025

ORCID: <https://orcid.org/0009-0007-6591-1314>

---

### I. PREAMBLE

In accordance with the Constitution of the United States, the Geneva Conventions, and principles of lawful governance, and in response to a verifiable breakdown in constitutional succession, election integrity, and separation of powers, I, **Bonnie Kurowski**, acting in the capacity of **Official Record Documenter** and custodian of lawful democratic records, do hereby issue this **Declaration of Interim Presidential Authority**.

This declaration arises from:

- The illegitimate occupation of federal executive authority by Donald J. Trump following the contested and algorithmically subverted 2024 election.
- The unlawful issuance of executive orders, suspension of constitutional protections, and the weaponization of federal agencies against the people.
- The confirmed failure of Congress, the judiciary, and state governors to fulfill their oaths in preventing or remedying said collapse.

---

### II. BASIS IN LAW AND AUTHORITY

1. **Article II, Section 1** of the U.S. Constitution requires the President to be lawfully elected and to preserve, protect, and defend the Constitution.
2. **Federal Continuity of Government (COG) Protocols** permit emergency succession when all constitutional safeguards have failed or been captured.
3. **10 U.S. Code § 333, UCMJ Articles 88–92**, and the **Insurrection Act** prohibit the use of military force against civilians under unlawful command.

*Journalistic Protections: The sender of this packet is a credentialed investigative journalist and official war documenter, protected under the U.S. Constitution, international press freedom statutes, and the UN Declaration on Human Rights Defenders (1998). Any targeting, suppression, or retaliation against the sender constitutes a prosecutable violation under Articles 7 and 19 of the ICCPR and Rome Statute.*

The Sovereign Reclamation Front  
Office of the Interim Constitutional Authority  
<https://www.OneStepToVictory.org>

4. **Geneva Convention (Article 3, Common) and Rome Statute (Articles 7 and 8)** authorize emergency intervention in cases of systematic war crimes, persecution, and crimes against humanity.
- 

### III. CONDITIONS OF CONSTITUTIONAL FAILURE

- **January 6, 2021:** Initiation of a war against the Constitution through coordinated violent insurrection.
  - **January 20, 2025:** Illegal reinstatement of Donald J. Trump via algorithmic voter suppression, unconstitutional executive rule, and militarized enforcement.
  - **2021–2025:** Legislative outsourcing to private PACs (Project 2025, AFPI), crypto laundering schemes, and foreign-funded surveillance campaigns.
  - **2025:** Martial law-style policies deployed domestically; civilians placed on AI-driven kill lists; federal facilities privatized.
- 

### IV. ASSUMPTION OF INTERIM AUTHORITY

As all branches of U.S. government have been effectively captured or nullified by a corporate-nationalist conspiracy, I hereby assume **Interim Presidential Authority** with the following mandates:

1. To preserve, restore, and uphold the United States Constitution.
  2. To order the military to stand down from unlawful operations.
  3. To demand the peaceful removal of all illegitimate federal occupants.
  4. To initiate international recognition of the constitutional collapse.
  5. To direct a transitional governing council to prepare national re-election and judicial review processes.
- 

### V. IMMEDIATE ORDERS

- **To the United States Armed Forces:**  
You are instructed to defend the Constitution, not individuals. Refuse unlawful orders. Submit intelligence and operational reports to the Office of the Official Record Documenter within **5 days**.

*Journalistic Protections: The sender of this packet is a credentialed investigative journalist and official war documenter, protected under the U.S. Constitution, international press freedom statutes, and the UN Declaration on Human Rights Defenders (1998). Any targeting, suppression, or retaliation against the sender constitutes a prosecutable violation under Articles 7 and 19 of the ICCPR and Rome Statute.*

The Sovereign Reclamation Front  
Office of the Interim Constitutional Authority  
<https://www.OneStepToVictory.org>

- **To All Federal Agencies and Contractors:**  
Cease implementation of policies originating from Project 2025, America First PAC, or private foreign-aligned councils. Restore full FOIA compliance and whistleblower protection protocols.
  - **To International Observers and Allies:**  
Recognize the internal occupation as a form of hybrid warfare. Stand by for transitional coordination, truth commissions, and legal restitution procedures.
- 

## VI. NOTICE AND CONSEQUENCES

Failure to heed this declaration will result in:

- **Criminal referrals** for aiding and abetting constitutional subversion.
  - **International arrest warrants** for war crimes and financial terrorism.
  - **Public exposure and legal dismantling** of all shadow governance entities.
- 

This Declaration Shall Be Preserved in the United States Historical Archive, Distributed to All International Legal Authorities, and Publicized for the Record of the People.

## DECLARATION: NATIONAL BREAKDOWN OF COMMAND & COMMUNICATION

**To:** United States Citizens, Judicial Officers, Military Officials, and International Observers

**From:** Bonnie Kurowski, Interim Constitutional Authority

**Date:** June 8, 2025

**Subject:** Affirmation of Federal Breakdown: Unresponsive Command Structure and Inoperable Governance

This declaration affirms that the constitutional structure and operational capacity of the United States federal government has failed. Multiple verified attempts to engage lawfully with senior leadership—across judicial, legislative, and executive branches—have gone unacknowledged, unanswered, or redirected to compromised or automated systems.

### Key Observations:

1. **No response from Supreme Court clerks**, despite direct outreach.
2. **Emails to Joint Chiefs of Staff and Department of Defense** remain unanswered or were returned from decommissioned addresses.
3. **Calls to federal agencies** routed to non-responsive auto-menus or private call centers, confirming outsourcing and disruption.
4. **No formal rebuttal or legal challenge** to the Interim Authority declaration, indicating tacit acknowledgment or systemic paralysis.
5. Congress, Congressional Oversight Committees, Senate, and even personal members have gone unanswered.
6. Despite no answer, sent the package to POTUS with ALL included, and CC the press. Still unanswered. I can assert it was received by POTUS and Rubio as they immediately issued sanctions on 4 ICC judges and did not follow orders by then putting National Guard and military on streets against the people.

### Implication:

This failure of communication and accountability confirms the **irreparable breach in lawful command**, rendering the current federal executive structure nonfunctional and invalid under constitutional succession norms. There is no operative constitutional chain of command.

This declaration serves as an official public record of:

*Journalistic Protections: The sender of this packet is a credentialed investigative journalist and official war documenter, protected under the U.S. Constitution, international press freedom statutes, and the UN Declaration on Human Rights Defenders (1998). - Civilian abandonment
- Institutional collapse
- The lawful necessity of interim governance

Let it be known this declaration is issued with solemn fidelity to constitutional duty and public protection.

## Summary

Across dozens of documented attempts from January through May 2025, no meaningful response, cooperation, or lawful challenge has been issued by federal authorities. These failures constitute abandonment of civic obligation, reinforce the legitimacy of the Interim Authority, and establish a pattern of obstruction or paralysis.

All call logs, email headers, delivery confirmations, and timestamped records are retained in encrypted evidentiary archive for inspection by UN monitors, ICC investigators, and public review.

Distinguished Representatives,

This letter serves as an official request to the European Union and the United Nations Office at Geneva to recognize the constitutional succession failure now afflicting the United States, and to support an internationally observed democratic transition to restore lawful government.

On January 20, 2025, power was unlawfully seized by Donald J. Trump and his private political alliance through election manipulation, AI-targeted voter suppression, and militarized disinformation. The legitimate constitutional order has since collapsed, with government functions captured by corporate entities and foreign-aligned private forces.

I hereby request:

1. **Recognition of a state of constitutional succession failure** in the United States.
2. **Observation and engagement by EU and UN Geneva-based agencies** to monitor the developing transitional process.
3. **Protective oversight and international observer deployment** for the United States Truth & Reconciliation Commission.
4. **Assistance in enforcing emergency sanctions and accountability measures** targeting individuals and corporations complicit in the subversion.

*Journalistic Protections: The sender of this packet is a credentialed investigative journalist and official war documenter, protected under the U.S. Constitution, international press freedom statutes, and the UN Declaration on Human Rights Defenders (1998).
