

SAGE OPTIMUS CONSULTING LLC

WE SEE YOU

Diversity of hope, Diversity of resources , Diversity in any circumstance...within a diversity of perspectives you broaden the ability to problem solve and discover solutions due to varying experiences and backgrounds. Our unique ability to tap into a broad range of resources enables Sage Optimus Consulting to stand out as an industry leader with Excellence, Integrity, Clarity and Commitment. The foundation of any healthy community is the shared values of the collective. The bond formed by truly seeing someone as they are and honoring them in that space of authenticity allows your brand to stand out from the rest. In an unprecedented age of disconnection and uncertainty aligning with that which unites us can make all the difference.

WE ARE

Sage Optimus Consulting is a consulting house of traditional communications and project management strategy merged by cutting-edge visuals and IT data modernization. Our team has over 15 years of mission-driven and excellence focused experience. We don't just resolve, we meet you right where you are to train and implement the long term effort to ensure seamless consistency and positive outcomes.

WE DO

Business Process Management and Improvement	Digital Strategy & Graphic Design	Public Relations and Outreach
IT Investment Management	Project and Program Management	Video Production
Training Development	Knowledge Management	Regulatory Analysis & Policy Strategy
Communications	Operational Planning	Agile Development & DevSecOps
Content Development		

WE RESPOND

The consultation phase of the SOC process consists of the initial meeting. Following this meeting the team does a full assessment as well as any initial research and strategy to accurately prescribe the solution and identify what is needed to resolve your particular situation.

Once you (the client) has approved the plan and clearly detailed their priorities in the process, an agreement is made and we research every aspect, angle and stakeholder applicable to your case. What is needed to resolve your particular situation.

At this point the SOC team puts all their resources to work to render an excellent outcome for you. Because our team is rooted in delivering excellence, this also includes stakeholder identification and a risk assessment and mitigation strategy to cover all angles of the situation and stakeholders involved. We ensure our clients are covered at all costs.

The SOC team takes everything obtained and puts all of their magic in to creating tangible, adaptable and long term sustainable solutions for the client.
