# SYNCHROCITY

**GUITAR & DRUMS SUMMER COURSE** 

## **Week 1: Foundations and Rhythms**

## **Theory Sessions:**

Introduction to basic music theory: notes, scales, and chords.
Understanding rhythm patterns and time signatures.

## **Practical Sessions:**

Guitar:

Proper hand positioning and finger exercises.

Basic open chords (C, G, D, E, A).

### Drums:

Drumstick grip and basic drumming techniques.

Practice drumming patterns (quarter notes, eighth notes).

### Performance Goal:

Students perform a simple chord progression on the guitar or a basic drumbeat.

## **Week 2: Melodies and Beats**

## **Theory Sessions:**

Melodic intervals and scales. Introduction to pentatonic scales.

## **Practical Sessions:**

#### Guitar:

Playing melodies using single notes. Introduction to power chords.

#### **Drums:**

Creating drum fills and variations. Syncopated beats.

#### Performance Goal:

Students play a short melody or drum fill.

## **Week 3: Song Interpretation and Ensemble**

## **Theory Sessions:**

Analyzing song structures.
Chord progressions in popular songs.

## **Practical Sessions:**

#### Guitar:

Learning a song by ear.
Strumming patterns and dynamics.

#### **Drums:**

Playing along with recorded tracks. Developing groove and timing.

#### Performance Goal:

Students perform a song excerpt (guitar or drums) with accompaniment.

## Week 4: Performance Showcase and Rewards

## **Theory Sessions:**

Stage presence and audience engagement.

Music career options.

## **Practical Sessions:**

Guitar & Drums:

Rehearsing for the final showcase.

Polishing performance skills.

### Performance Goal:

Students participate in a live showcase (online or offline) where they perform a complete song on their chosen instrument.

#### Rewards:

Certificates of completion.

Recognition for outstanding performances.

## A CELEBRATORY JAM SESSION!

Let's make music together! 

If you have any specific preferences or additional requests, feel free to share them, and we'll tailor the crash course accordingly. Rock on!
