

Help us *by becoming a 2022 Donor!!!* Our mission is to provide a community supported youth enrichment education program committed and dedicated to engaging and informing youth, parents, schools, and community partners on the dangers of e-cigarette use. All the resources we produce are provided to every school and the entire community for FREE ALL year long. We are in the process of producing our THIRD annual Virtual Vaping Summit which will be provided for free to the entire state of Mississippi. Enrich MS continues to make a substantial impact in our communities across the state towards prevention for a variety of issues affecting our youth today. We need your help to carry out our mission. Help us make a difference!

A word from one of our funders:

"I hope you are having a good week. I wanted to tell you how pleased I am with this year's Vaping Summit. You more than doubled the size of the audience from the previous year and made all the content available online. Participants commented that they really appreciated having the option to view presentations and breakout sessions when it was convenient for them. The registration was easy, and viewers were able to easily navigate and view the landing page. The personal stories, especially from the youth, were compelling and one of the things that attendees rated the highest. Getting youth to talk to adults about vaping is not an easy task, but you did it!

Several things I appreciate about you:

- You are easy to work with and always have a positive attitude. You are flexible, open to new ideas, and come to meetings prepared.
- You have a passion for this work and have never backed down from a challenge. If you don't know how, you figure it out. Even during COVID, you found a way to keep moving things forward.
- You bring new stakeholders and community members to the table. You have brought in school administrators, healthcare providers, parents, and policy makers that we would not have collaborated with without your influence and input.

Many thanks for your hard work. I look forward to working with you on our third Vaping Summit!"

The third annual Virtual Vaping Summit will be held on February 24th, 2022, at 8:30 am. This event will have powerful testimonials, expert speakers, and a ton of free resources for schools, parents, lawmakers, and youth. The Enrich MS youth leadership team is involved in the planning of this conference, and we will spend the rest of year promoting this as a free resource to the entire state especially schools, parents, and youth themselves.
