

defined in Section VII of this booklet.

- Neither the School Board of Broward County nor its employees will be held liable for items that are prohibited and are lost, stolen, or confiscated; or for wireless communication devices or other personal technology that are lost, stolen, or confiscated.
- Be aware that confiscated items not claimed by the end of the school year will be donated to local charities.
- Recognize that they are responsible for their student's behavior on the way to and from school and at the bus stop. A safe and respectful learning environment is key to academic achievement; therefore any student's off campus actions that seriously affect a student's ability to learn or a staff member's ability to teach may be handled as a disciplinary infraction. For serious incidents that occur at bus stops and/or that are not on School Board property, parents should contact law enforcement directly. For bullying incidents (see bullying definition, Section II), school officials should be notified and will investigate and/or provide assistance and intervention, as the principal/designee deems appropriate, which may include the use of the School Resource Officer.
- Ensure their child demonstrates legal, ethical and responsible use of technology including networks, digital tools, the Internet, and software, as defined in Section IV of this booklet.
- Parents will continue to maintain responsibility for students who reach the age of majority, (18 years or older), for all educational and discipline purposes, with exceptions as provided by statute.

Note: Parental selection for each form within the Code of Student Conduct will be effective until a new form is submitted.

Configure a Digital ID for signing

A Digital ID is required to create a digital signature. The most secure Digital ID are issued by trusted Certificate authorities and are based on secure devices like smart card or token. Some are based on files.

You can also create a new Digital ID, but they provide a low level of identity assurance.

Select the type of Digital ID:

- Use a Signature Creation Device
Configure a smart card or token connected to your computer
- Use a Digital ID from a file
Import an existing Digital ID that you have obtained as a file
- Create a new Digital ID
Create your self-signed Digital ID

2

Select the destination of the new Digital ID

Digital IDs are typically issued by trusted providers that assure the validity of the identity. Self-signed Digital ID may not provide the same level of assurance and may not be accepted in some use cases.

Consult with your recipients if this is an acceptable form of authentication.

- Save to File
Save the Digital ID to a file in your computer
- Save to Windows Certificate Store
Save the Digital ID to Windows Certificate Store to be shared with other applications

3

Create a self-signed Digital ID

Enter the identity information to be used for creating the self-signed Digital ID.

Digital IDs that are self-signed by individuals do not provide the assurance that the identity information is valid. For this reason they may not be accepted in some use cases.
