RESTORE THE WAY YOUR
BODY LOOKS AND FEELS
THROUGH THE HEALING POWER
OF VIBRATIONAL FREQUENCIES

EASY21

Wellness without pharmaceuticals

EASY21

BRING BACK WELLNESS FOR EVERYBODY...

Easy 21 emits muscular, mechanical and sound vibrations to balance our bodies frequencies. The balance that is referred to in the Chakras.

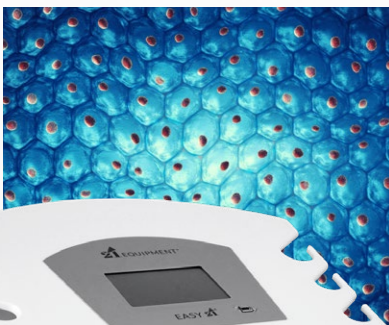

Easy 21 is no old remedy is offers the benefit of Quantum, advanced science and technology.

HOW IT WORKS ON THE BODY'S CELLS

By an energetic and global action, the EASY21 vibrations allow the vital energy to circulate and allow to eliminate the residual stress. This action favors the evacuation of disturbances memorised by our cells. As a result, they are released and reprogrammed.

The energy points are connected to the nerve plexus and the hormonal glands which redistribute vitality to the different parts of the body.

The energy points located in the upper part of our body, direct our psychological properties. Those in the lower part influence our physiological abilities.

THE EASY21 TREATMENT TYPES

ACCOUSTIC FREQUENCIES

Vibrational frequencies as well as white noise are transmitted through headphones . White noise is a barrier tp other sounds. It is particularly suitable for insomnia problems.

- Insomnia
- Anxiety & depression
- Harmonisation of the body and mind

...AND REHARMONISE THE MIND & BODY ENERGY BALANCE

How the seven unique frequencies
work on the body.

OXYGENATING | 384Hz

The associated endocrine gland is the thyroid. It's functioning nourishes the energetic, emotional system of weight gain or loss, as well as lymph.

REBALANCING | 480Hz

The associated endocrine is the pineal gland. It regulates the sleep-wake rhythm, hunger-thirst and body temperature, while stimulating the pituitary gland to produce certain hormones.

REGULATORS | 426Hz

The associated endocrine gland is the pituitary gland. It regulates the hormonal system and influences the nervous system.

STRENGTHENING | 341.3Hz

The associated endocrine gland is the thymus, it regulates the activities of the immune, circulatory and respiratory systems.

NORMALISING | 320Hz

The associated endocrine gland is the pancreas, responsible for digestive processes, it influences the storage and destocking of fats and blood sugar. It thus regulates metabolic and energy functions.

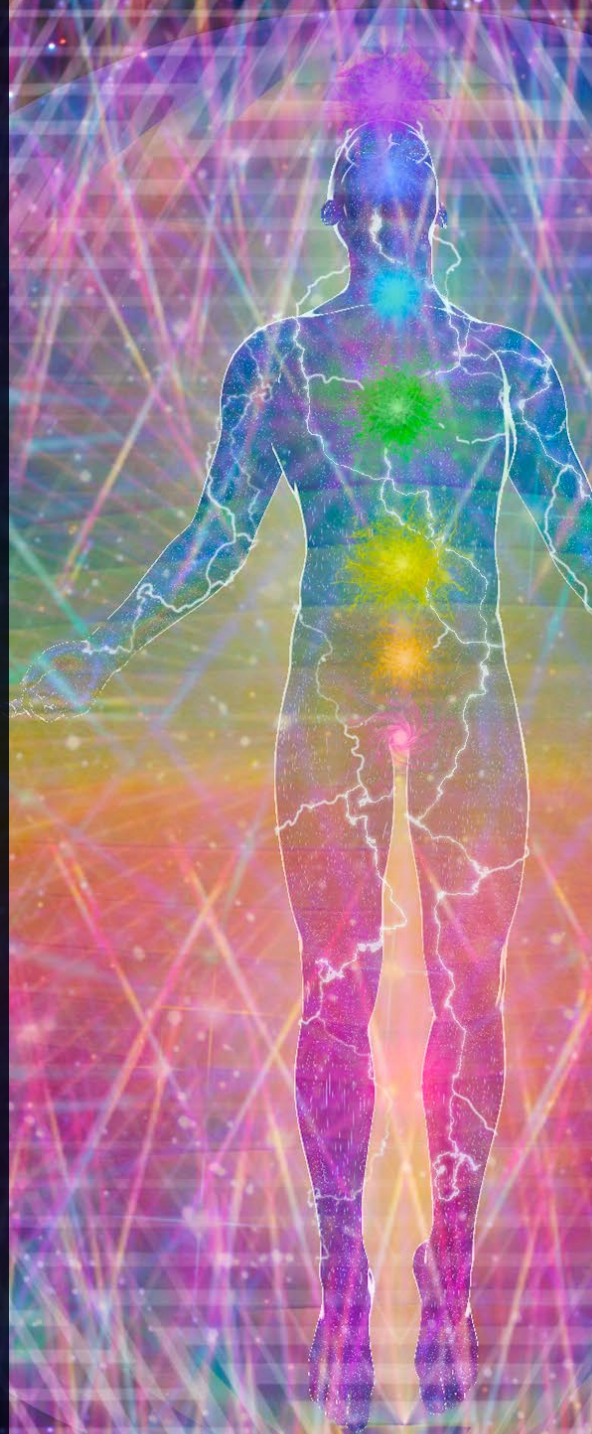

DRAINING | 288Hz

The endocrine glands are the gonads, they are associated with the reproductive and elimination systems.

ACTIVATORS | 256Hz

The associated endocrine glands are the adrenals, responsible for managing stress, hormonal disturbances and sleep disorders. This corresponds to the satisfaction of stability, food and the need for survival.
