

TREATMENT AREAS:

- SAGGING SKIN; FACE, NECK, EYE LIDS
- AGE SPOT AND SKIN TAGS
- LINES AND WRINKLES
- LIP LINES AND CONTOUR
- PIGMENTATION
- BIRTH MARKS
- TATTOOS, SCARS AND STRETCH MARKS

SAFE, NATURAL & GENTLE

How does 21 Skin Cell Regeneration™ work?

A highly energized flash similar to lightening is delivered in milliseconds to the treatments area.

Unlike conventional laser or plasma treatments, pain or risk of residual scars is avoided. A probe, focused to an area equal less than a pin head does not penetrate or touch the skin.

The flash has a very low thermal time constant. This means it gives up its thermal energy very rapidly so that the skin is not broken down, charred, or vaporized upon treatment.

This rapid dissipation results in a controlled and uniform energy transmission.

The skin cells selected and affected are superficial but the damage to them triggers the production of new skin cells deep in the dermis, the natural healing response of the skin.

Superficial blemishes such as age spots and skin tags are typically eliminated immediately. Deeper subdermal problems such as scars, stretch marks, tattoos, lines and wrinkles are refined progressively over a number of treatments.

The new skin cells that are produced have more elasticity and the resulting effect is that tissue is firmer and capable of lifting sagging eye lids or larger areas of skin to produce a rejuvenating lift to the area. This is particularly valuable to produce a non-excisional and so a non-invasive lift to the neck, face or any area suitable for treatment.

- Non invasive, non-surgical. No residual scars.**
- No pain and immediately visible results.**

21 Skin Cell Regeneration™

21 ADVANCED SKIN CELL REGENERATION™ Touch Skin

21 Advanced Skin Cell Regeneration™ is....

- ⇒ A scientific instrument that offers the most advanced treatment for removing and refining many common skin blemishes.
- ⇒ Non-invasive without pain or the risks that can occur in surgical procedures.
- ⇒ Medical supervision is not required except in cases where there might be any contra-indication.
- ⇒ The equipment is presented in its own robust carry case.
- ⇒ Lightweight and portable, it is very convenient for domiciliary visits and conducting treatments at other locations.

TREATMENT BENEFITS:

- INSTANT INCH LOSS
- MUSCLE STRENGTHENING
- MUSCLE TONING
- LIFTING & RESHAPING
- BUST & BOTTOM LIFTING & RESHAPING
- SKIN TONING & REJUVENATION
- RELIEVE FLUID RETENTION
- FACE AND BODY LIFTING
- FACE AND BODY RESHAPING

SAFE, NATURAL & GENTLE

How does 21 Perfect e-fitness™ work?

Just as your brain delivers electrical impulses to stimulate muscle to perform a range of perfect exercises. The computer software delivers a range of specific electrical impulses that require no effort on the part of the client. Artificial intelligence applied to create the perfect personal fitness trainer.

These impulses are applied with electrodes placed on muscle precisely in the area improved fitness is needed in the face or body. The range of impulses include;

“rectangular” stimulating muscles to move in a way that accelerates the metabolism while firming the muscle to provide instant inch loss.

“isometric” a perfect resistance exercise that can increase muscle strength by 100%. Muscles then have a shorter resting length, the perfect lift for face, bust or bottom.

“katz” deep muscle toning, working on all muscle fibres for a full lifting and firming effect as achieved in running to put your body in shape.

“triangular” stimulation of connective tissue, vibration that recovers skin tone, activating collagen, elastin and tissue oxygenation, brightening skin.

“micro-current” skin rejuvenating skin by increasing ATP production, promoting protein synthesis and activating amino acids.

“WAVE 21” Dr Vodder manual lymphatic drainage massage, now fully automated and perfectly in sync with the rhythm heart for to optimise treatment.

These exercises are relaxing, they require no effort, the skeleton is not moved. There is no skeletal disturbance or cardiac stress. This makes 21 e-fitness the ideal solution for those who would love to be in better shape but find vigorous exercise inconvenient or impractical due to injury or illness.

This form of Faradic muscle stimulation has been applied in isotonic exercise by physiotherapists and in simple toning devices for many years. Now in Italy the 21 medical technicians have applied the latest advances in software to create the most perfect exercises for slimming, reshaping, fitness and wellness.

Non invasive, non-surgical. No medication required.

21 Perfect e-fitness™

21 ADVANCED E-FITNESS™ is s21

21 Perfect e-fitness™ is....

- ⇒ •Artificial intelligence that enables perfect personal fitness training. The effortless gym for both face and body.
- ⇒ •Computerised exercises to speed up metabolism and create instant, measurable inch loss, exactly where it is wanted.
- ⇒ •Specific exercises that improves fitness and can be focussed to provide a non-surgical alternative for face, bust, bottom, arms, legs and body reshaping and lifting with results that are visible and measurable immediately after treatment.

⇒ Also available in this portable case >

FACE

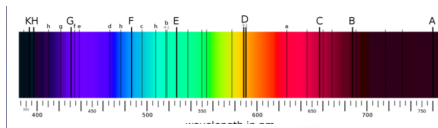

- Wrinkles • Dull dehydrated skin • Eye bags
- Skin slackness • Thin and dehydrated lips
- Skin discoloration • Dark circles #Acne

BODY

- Eye bags • Visible capillaries • Stretch marks
- Wrinkles • Inner arms • Inner Thighs • Scars

PSYCHOLOGICAL BENEFITS

- Energizing • Relaxing • Cellular balancing
- Bain function activation • Increase of immune defences • Self esteem

SAFE, NATURAL & GENTLE

How does 21 Intelligent light therapy™ work?

Headphones are placed on the client. These deliver different wavelengths of the visible light spectrum to repair all cells in your body and benefit your well being.

To refresh the skin, thimbles are also placed on the fingers of the therapist when deliver electrical impulses to reduce eye bags, refine lines, wrinkles and scars.

The pulsed electrical field dilates the pores and galvanizes the skin creams so that their nutrition is delivered into the tissue to correct cosmetic problems by activating metabolism of the cells within the skin.

The benefits of light therapy are well known, particularly the benefit of blue light cradles for treating babies born with neo-natal jaundice. The delivery of blue light turns the bile that creates neo natal jaundice to become water soluble and so is eliminated from an infants body.

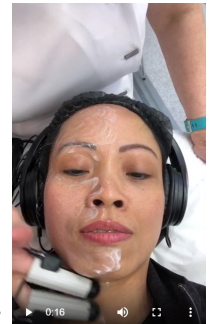

The discovery by scientists that light delivered directly to blood vessels is so much more effectivel, is a breakthrough that stimulated 21 Equipment to develop this intelligent use of light therapy.

This process has been used to treat trauma victims in the Gulf war with probes placed in the nose. Now 21 Equipment have created a far more friendly solution by delivering the light to blood vessels through what looks like headphones.

It was discovered that this concept of quantum bio-resonance rebalances and regenerates cells in the blood stream repairing them to solve so many problems, including, it is claimed, even improving brain function.

Much is too be learned other benefits that this new treatment provides such as clients suffering from Tinnitus who ar reporting relief from this condition.

Non invasive, non-surgical. No medication required.

TREATMENT AREAS:

FACE & BODY CRYO-MASSAGE PROVIDES ENHANCED FACIAL AND BODY TREATMENTS, IMPROVING THE LOOK OF THE SKIN AND RELIEVING ACNE, ECZEMA, PIGMENTATION, AND ROSACEA. ALSO PROVIDES THE RELIEF OF SINUSITIS

DOUBLE CHIN, ARMS and SMALL AREAS

21 CRYO LIPOLYSIS IS SUPPLIED WITH MASSAGE HEADS IN TWO SIZES ENABLING TREATMENT OF ALL AREAS.

NECK DETERIORATION OF THE NECK IN LATER LIFE IS ONE OF THE MOST VISIBLE SIGNS OF AGEING. 21 CRYO'S FIRMING AND FAT REDUCTION EFFECT REJUVENATES THE APPEARANCE OF WRINKLED AND SAGGING NECKS.

EYES SAGGING, PUFFY EYES AND EYE BAGS ARE WELL KNOWN TO RESPOND WELL TO CRYOTHERAPY.

LIPS 21 CRYO CREATES A FULLER FIRMER APPEARANCE REPLACING THE USE OF INJECTABLES..

HAIR COLD STIMULATES BLOOD CIRCULATION AND SO IMPROVES DELIVERY OF NUTRIENTS TO THE HAIR.

PAIN PHYSIOTHERAPISTS COMMONLY IMMERSIVE PATIENTS IN COLD CHAMBERS. CRYO REPLACES THIS DISCOMFORT BY MASSAGING THE CORRECT COLD TEMPERATURES DIRECTLY TO RELIEVE THE PAIN DIRECTLY TO THE AREA AFFECTED

SAFE, NATURAL & GENTLE

How does 21 Advanced Cryolipolysis™ work?

Cryolipolysis often referred to as Cryotherapy refers in this case to the physical application of cold to the skin. Cryotherapy is used for a wide range of treatments. Physiotherapists use the application of cold to relieve pain, but there are over 100 different treatments for health, beauty and well being that 21 Equipment advanced electronics have made possible with this one device.

Early Cryo equipment was very limited. It utilized a vacuum cup to hold the tissue while freezing it. Limited primarily for slimming only, it creates discomfort and risks tissue damage. Lack of immediate visible benefits with early Cryo prompted 21's medical technicians in Italy to develop an advanced approach that enables the tissue to receive a massage during treatment and deliver far more precise temperatures.

Massaging enables the treatment of the fat together with movement of lymph to encourage and accelerate the natural exit of dead fat cells to the bladder. This results in a targeted area to slim, remove cellulite with immediate result but without any need for any risk or liposuction.

21 Advanced Cryolipolysis is ideal for dealing with stubborn fat in areas like hips, thighs, shoulders, posterior, chins and backs of arms.

Clients do not feel the cold as the massage technique and the low temperatures encourage blood supply warming the surface of the skin.

In addition to improved comfort during treatment, the blood delivers nutrients to improve skin condition and now proven valuable in treating many conditions like psoriasis, eczema or dehydration affecting the skin, the scalp and thin hair and so promotes hair repair.

Apart from slimming and reshaping, elimination of cellulite and the benefit of reducing fluid retention through manual lymphatic drainage massage, there is a significant improvement in blood circulation. This improves the delivery of nutrients to the skin and scalp encouraging restoration and improvement of the condition of the skin and hair.

Fast, effective results, non-invasive, non-surgical and no risk.

21 Advanced Cryolipolysis™

21 ADVANCED CRYOLIPOLYSIS™ Cryo 21

21 Advanced Cryolipolysis™ is....

- ⇒ •Cryolipolysis is now proven to be best alternative to liposuction; faster and safer than ultrasound or cavitation.
- ⇒ •21 Advanced Cryolipolysis™ is more effective because it is the first combine massage with fat freezing to give immediate visible results without the problems associated with vacuum cup methods.
- ⇒ •21 Advanced Cryolipolysis™ is the most advanced and versatile Cryolipolysis treatment effective for all of the body and face, including the smallest areas like double chins and backs of arms.
- ⇒ •21 Advanced Cryolipolysis™ is certainly every patients preferred alternative to potentially addictive pharmaceuticals for pain relief.
