CRYO 21 FACIAL TREATMENTS

With the Cryo 21 range of facial treatments, it is possible to freeze away the years giving you a firmer, brighter and younger looking face.

Treatments include:

CRYO -THERAPY FACIAL

The cold activates the collagen to produce more cells, giving an instant tightness and filling fine lines and wrinkles. At the same time, a revolutionary cream, containing plant stem cells, is applied to the surface of the skin.

This helps to protect the human skin cells from damage, stimulates them to produce collagen and elastin, which in turn fills out the fine lines and wrinkles.

DOUBLE CHIN FACIAL

This is a non-invasive fat reduction treatment. Removing the fat under the jaw, which is difficult to remove with diet and exercise.

FULLER LIPS

No need for painful and expensive surgical enhancements, no need for needles. Plumper lips are possible with Cryo 21, the treatment gives you luscious lips with added volume and shine, the results are visibly stunning and long lasting.

ANTI-AGEING FACIAL

Ageing is slowed down by the science of cryotherapy. This facial also reduces the size of your pores, making your skin appear brighter smoother and less puffy.

EYES

A 20 minute treatment focusing on the fragile eye area. Post-treatment eyes are visibly refreshed with a decrease in dark circles, bags and shadows. Eyelids are also rejuvenated and the appearance of crows feet and fine lines are reduced. This treatment also tones the eye contour and brightens and refreshes the eye area.

NECK

This treatment will help the neck to regain some of its elasticity, making it appear younger and smoother.

Non surgical lipo - ABDOMEN, LEGS, BACKS OR BUTTOCKS

21 CRYO 21

Cryo 21 is a device for cryo-lipolysis (physical treatment by cold) and provides a fast freezing alternative to liposuction to remove stubborn fat.

Apoptosis (the death of cells) occurs when the machine reduces the temperature in the area from 34°C to 8°C and without the client feeling cold. After four to six treatments it is not unusual for the clients to lose up to 12cm around the waist or five sizes. And all of this is accomplished permanently without any kind of surgery!

Cryo
Cryo is renowned for its lymphatic drainage properties and through a gentle treatment can encourage the lymph to complete its natural route and improve the problem. Cryo 21 can also be used on cellulite anywhere on the body, it can be focused on common problem areas such as hips and thighs, with the head of the cryo being used to carry out a series of manoeuvres on the specific areas to breakdown the stubborn cells.

Lymphatic Drainage
The lymph carries waste products away from the tissues and back to the heart. When it is interrupted or blocked it can cause swollen, heavy limbs, which when combined with gravity can lead to a flooding of the feet tissue and painful swelling.

The benefits of Cryo 21 include:

- IMPROVEMENT OF BLOOD CIRCULATION
- ELIMINATION OF LOCALISED CELLULITE
- DECREASE IN THE NUMBER OF FAT CELLS
- LYMPHATIC DRAINING
- SLIMMING AND RESHAPING

Whilst not fatal, these conditions do have a severe impact on the quality of life of the sufferers and their general and well-being. Cryotherapy not only treats the symptoms, but it also forces the body to reset its immune system to help fight against the underlying infection.

Cryo 21 is not a miracle cure and it should be used in conjunction with a healthy lifestyle and avoiding those things which are known to cause flare-ups ... but it does deliver impressive results for many people.

HOLISTIC CRYO
It is estimated that between one in four people, suffer from some form of chronic skin disease, the most common being:

- PSORIASIS
- ECZEMA
- ACNE
- ROSACEA
- PIGMENTATION
- SINUSITIS

HAIR LOSS
Cryo 21 acts significantly on hair loss, especially when there is a problem of alopecia areata or hair loss due to drugs, chemical products or high levels of stress. The treatment is performed with the Cryo 21 equipment and combined with gentle massage to increase oxygenation in the tissues and cell regeneration.

They want all the profit and that is why they want to sell you their retail jars.

Bespoke premium skin care could retail for at least £80 or much more. Just how much would your clients be prepared to pay for your skill?

Beautiful glass cosmetic jars are not expensive, search "Cosmetic Jars" on line Email liz@21Clinic.co.uk for advice on prescriptions and help with labels and jars and for a copy of the 21 Skin care cosmetics trade price list.
