6. DISCLAIMER:

It is required that you find a reputable veterinarian to keep this puppy up to date on vaccinations and health issues. Breeder assumes no responsibility for the puppy after it leaves the premises, for medical expenses, family disputes, or any other problems you have not thought out. I do not pay veterinarian bills or transportation costs under any circumstances. Please consider all the pros and cons of adding a puppy to your life before you purchase this new member of your family! Please know the breed or research the breed BEFORE buying the puppy. It takes good breeding AND good dog owners to get good dogs! We have done our part; you must do yours to keep your puppy safe, healthy and happy. Thank you! I do suggest a puppy training class for you so that you know how to handle your puppy as sometimes they are too smart and will train you.

In order to Protect, Strengthen and Support your Healthy puppy, I totally recommend a daily supplement. I give all my dogs NuVet Plus and they are all healthy and receive the nutrients they need to maintain a healthy lifestyle. Studies have shown that when a puppy receives antioxidant supplement such as NuVet, immune response to vaccination dramatically improves. NuVet vitamins will strengthen your dog's immune system and I highly recommend it. Go to www.nuvet.com or call 1 (800) 474-7044 to order your supply. Please use code: 386662.
