

Welder/Fabricator – Job Summary

We are seeking a skilled and dependable **Welder/Fabricator** to join our team. This role involves fabricating structural and miscellaneous steel components, performing welding tasks, and operating a variety of shop equipment. The ideal candidate is detail-oriented, safety-conscious, and able to work efficiently in a fast-paced environment.

Key Responsibilities

- Fabricate steel structures and components based on blueprints and specifications
- Perform MIG and acetylene welding on various metal parts
- Operate fabrication equipment including saws, drills, and ironworkers
- Read and interpret blueprints and working drawings
- Measure, cut, and assemble materials accurately
- Inspect finished welds to ensure quality and compliance with standards
- Maintain tools, equipment, and a clean, safe work environment
- Follow all safety procedures and guidelines
- Collaborate with team members to improve processes and productivity
- Perform additional duties as assigned

Qualifications & Skills

- Knowledge of welding techniques, tools, materials, and safety practices
- Ability to read and interpret blueprints and technical drawings
- Experience using hand, power, and air tools
- Strong attention to detail and quality workmanship
- Ability to work independently and use sound judgment
- Willingness to learn through hands-on training and instruction

Physical & Work Requirements

- Ability to lift heavy materials (up to 75+ lbs.) and push/pull heavy loads
- Capable of standing for extended periods and working in various positions (bending, kneeling, reaching, crouching)
- Comfortable working in confined spaces and at different heights
- Ability to work in a variety of weather conditions and environments
- Must be able to perform physically demanding tasks in a fast-paced setting
- ***Pre-employment physical and drug screening required.***
