

FOR IMMEDIATE RELEASE

Felicia Berrier Releases New Dance-Pop Single 'Deal With It'

Pennsylvania based indie-pop artist Felicia Berrier returns with her latest single “Deal With It.” “Deal With It” is an upbeat dance-pop anthem with shimmering synths, melodious hooks, and heartfelt storytelling.

Inspired by the confusion of mixed signals and unrequited feelings, 'Deal With It' explores the emotional space between hope and reality. The lyrics tell the story of falling for someone who never wanted the same thing, while the production transforms heartbreak into an energetic anthem.

Felicia Berrier is a 23-year-old indie-pop artist from the Delaware Valley. She creates honest, melody-forward songs about the events life throws her way. Creating music is her way of turning emotions into art. Blending infectious hooks with detailed stories, her music spans all moods and energy levels - from heartbreaking piano ballads to upbeat dance pop.

Following her previous single “GPS,” “Deal With It” showcases another side of her artistry. “Deal With It” contains a brighter, danceable sound while still being an emotional story.

“Deal With It” is released along with a playing-card-inspired visual campaign, reflecting the song's theme of being dealt a situation you never wanted. From a custom lyric video to social media videos, the concept brings the story of the song to life.

“Deal With It” is now available on all major streaming platforms.
