# ABOUT US

Foresight Packaging Solutions is here to provide its customers with jars, containers, tubes and vials made out of renewable and sustainable sources. Our founders continue to build on their combined 25+ years of product development and sourcing experience to offer fresh designs, new ideas, and biodegradable products with near manufacturing direct prices along side the highest level of customer service that can only be achieved with a strong local presence.

With warehouses located in both Canada and Asia we are uniquely positioned to offer an extensive product selection, fast delivery, customized packaging solutions and all at the most competitive prices in the industry. Using a fully integrated MRP system we are able to offer a wide range of products on our website, shipping from our warehouse located in Ontario, Canada, with order turn around times of less than 48 hours. For larger orders we offer direct to customer shipping from our warehouse in Asia where we are experts in consolidating your orders into a product mix that best suits your needs.

Whether you are a private retailer, in need of small quantities to be able to serve your local market or you are one of Canada's large publicly traded growers looking for a reliable partner to ensure your packaging needs are expertly met with what you need, when you need it, Foresight Packaging Solutions is here to exceed your expectations so you can do the same for your customers.

# DESIGN

Foresight Packaging Solutions at its heart is devoted to continually improving the containers, tubes and vials landscape. In a flooded market of generic packaging options, we strive to bring new ideas and new designs to market.

We regularly role out new designs for our customers to review and purchase. If your company is looking to build a brand in a crowded and easily confusable field of identical looking packages, or if you supply a market the has place unnecessarily high restrictions on the way your products can be packaged, then we invite you to follow our social media pages and subscribe to our newsletters so that you can be among the first to know when we drop our new designs. We work hard to ensure that all our new packaging is compliant to the latest regulations while still offering unique looks and functionality.

## SEMI-BIODEGRADABLE\* DROPPER BOTTLES

When precision is what your looking for when dispensing medication, our biodegradable dropper bottles offer a simple and time honoured solution. Featuring child resistant caps with tamper evident bands, embossed graduated pipettes and made of biodegradable materials, they are ideal for storing, selling and dispensing your oils and tinctures.

# BIODEGRADABLE JARS

Made of 100% biodegradable materials, the large opening on these jars and containers allow for ease of use as they are easy to fill. Along with air tight, child resistant lids means products stay fresher longer while helping to control odours.
