Notes:																		
1. This practice has contracted with the above medical schemes and may not charge co-payments for members on these schemes.																		
2. All other medical schemes will be subject to a R300.00 co-payment for each consultation by the member, if the scheme rate for 0162 or 2974 code < R1300.00. (except for those schemes mentioned under note 6 below and Bestmed). This payment is due even if PMB has been approved.																		
3. All prices include 15% VAT.																		
4. With physical cash payments, amounts are rounded to the nearest R10.00.																		
5. Cash payments will never exceed the practice's private rates. Should the total of a new consultation exceed the private rate, the 2974 code will be decreased to bring the total to the private rate.

10. For a follow-up consultation the practice charges one of the following codes: 0162 (Private rate: R1350.00); 2957 (Private rate: R1110.00) or 2974 (Private rate: R2200.00). This depends on whether PMB was approved, whether the consult was in-person or via Telehealth and the duration of the consultation. The code will be determined during the consultation and if possible, PMB will be applied for. The default code remains 0162.																		
11. For ECT the practice charges two codes: 0166 + 2970 (Private rate: R750.00 + R800.00 = R1550.00).

15. Momentum Evolve plan has no OH benefit, and Custom only when PMB in place
