	Report writing for insurance purposes / Personal medical attendant report: Per 15 Minutes		R 750,00																	

Notes:

- This practice has contracted with the above medical schemes and may not charge co-payments for members on these schemes.
- All other medical schemes will be subject to a R330.00 co-payment for each consultation by the member, if the scheme rate for 0162 or 2974 code < R1400.00. (except for those schemes mentioned under note 6 below, Bestmed and Sasolmed). This payment is due even if PMB has been approved.
- All prices include 15% VAT.
- With physical cash payments, amounts are rounded to the nearest R10.00.
- Cash payments will never exceed the practice's private rates. Should the total of a new consultation exceed the private rate, the 2974 code will be decreased to bring the total to the private rate.
- Members of the following medical schemes will be requested to pay the full private consultation fee in cash or by credit card and claim the amount that their scheme will pay themselves: Affinity, Allied, Barloworld, Bomaïd, Boncap, Building Industrie, Cape Medical, Cigna, Commed, Compcare, Genesis, Grintek, HaloCare, Health Squared (previously Spectramed and Resolution Medical Aid), Hosmed, Makoti, Medipos, Namibië, Old Mutual, Opmed, Parmed, Pharmed, Platinum Health, Sedmed, SES, Sisonke Health, Thebemed, Umvuzu, Unihealth Africa and Wooltru
- OH = Out of hospital, IH = In hospital
- The practice will not charge any co-payments for in-patient consultations, regardless of it's contracts with medical schemes
- For a first consultation the practice charges two codes: 0162 + 2974 (Private rate: R1450.00 + R2300.00 = R3750.00)
- For a follow-up consultation the practice charges one of the following codes: 0162 (Private rate: R1450.00); 2957 (Private rate: R1150.00) or 2974 (Private rate: R2300.00). This depends on whether PMB was approved, whether the consult was in-person or via Telehealth and the duration of the consultation. The code will be determined during the consultation and if possible, PMB will be applied for. The default code remains 0162.
- For ECT the practice charges two codes: 0166 + 2970 (Private rate: R750.00 + R850.00 = R1600.00).
- Members of the following medical aids require a specialist referral number from their general practitioner before a claim can be made with their scheme: GEMS, Bonitas, Discovery Keycare, Commed, Sasolmed, Medshield, Keyhealth, Medihelp Medmove!, Profmed Proactive-, Proactive Savvy- and Proactive Savvy Plus. This number is generally valid for 6 months. Without such a number the member remains liable for the consultation fees, regardless of PMB registration
- \* denotes new coding system that medical schemes aim to implement
- Boncap members are required to pay private rates as this plan is excluded from the contract with the practice
- Momentum Evolve plan has no OH benefit, and Custom only when PMB in place
- Bestmed will be subject to a R400.00 co-payment for a follow-up consultation and R1300.00 co-payment for a first consultation, regardless of PMBs. Bestmed Beat 1 and Rhythm options are required to pay private tariffs as the practice is not on the Bestmed network
- Sasolmed will be subject to a R400.00 co-payment for a follow-up consultation regardless of PMBs
