

# How To Wash Wig

Prepare following items: wig stand, washbasin, wig brush, shampoo & conditioner for wigs, care mist and towel ※1

Brush from the ends to loose up any teased hair and remove dust.

Add one push of shampoo to cold or lukewarm water and dissolve.

Soak it gently without tangling.

Gently handwash by pressing it up and down without rubbing.

Repeat it until all the dirt is removed,

Rinse 2-3 times with clean or lukewarm water.

Add one push of conditioner to cold or lukewarm water and dissolve.

Soak it fo about 1 to 2 minutes, then rise lightly.

Wrap in a dry towel to absorb moisture.

For human hair mix or 100% human hair, apply premium hair oil at this time. Apply the oil all over the hair from the ends. ※2

Brush from the ends gently.

Hang it on a stand and let it air dry or use a hair dryer with cool air to dry. For 100% human hair wigs, shape the wig using a hair dryer or iron after drying.

Finally, evenly spray the care mist over the wig and gently brush it into place.

※1 Please use the premium hair oil for human hair mixed and 100% human hair wigs.

※2 Please note that for 100% human hair wigs, the oil may not be easily permeated.
