

ENIAC Clock – Shipped to your Home or Office

*A special memento clock celebrating the 75th Anniversary of ENIAC
Shipped directly to your home or office by Compuseum, Inc.*

Clock size is 5" x 3" x 2.5" and weighs 11oz.

Would you like a digital clock to remind you of the ENIAC? Compuseum has teamed up with a special design shop in the United Kingdom to bring you a precision digital clock with original vacuum tube style "nixie tubes" to display month, day, year. We all appreciate old computers and perhaps you would like to keep ENIAC alive in your memory with this special memento clock.

The clock spends 55 second of every minute displaying the time, but for 5 seconds it displays the date on the tubes. When you plug it in and power up, it displays the 1946 date of ENIAC first operation on the tubes.

How to obtain the memento ENIAC Anniversary Clock

The price is \$450 which includes shipping to your home or office anywhere in the world. Simply pay by donating to Compuseum on the "Donate Now" PayPal style button on the web site at www.theCompuseum.org or at www.ENIACDay.org or at www.WorldComputerDay.org. Thereafter, send an e-mail to info@theCompuseum.org with address details about where to ship.
