JSB MATCH DIABOLO A.S. EXACT .177

Exact pellets are built for longer-range accuracy, with optimized weight, shape, and balance. Each pellet is hand-inspected for consistent quality and performance.

A benchmark for Field Target shooting and long-distance use (up to 200 m), they come in various weights and diameters to suit different airguns. Used by over 90% of shooters at the 2011 Field Target World Championship, they're proven at the highest level. Tested at 45 m, five-shot groups achieve up to 12 mm center-to-center.

JSB MATCH DIABOLO A.S. MATCH

The Match series builds on long-standing designs dating back to 1991 and is regarded as top-tier ammunition for ISSF competitions worldwide. Each pellet is manufactured with high precision and undergoes strict hand-selected quality control, ensuring consistent performance trusted by elite shooters.

Designed for 10-meter target shooting, these pellets feature a flat head for clean, accurate cuts in paper targets. They are available in various weights and diameters to suit different airguns, with exceptional consistency in size and weight. Each batch is tested to achieve a five-shot group with a center-to-center spread of up to 1.5 mm.

JSB MATCH DIABOLO A.S. PREDATOR POLYMAG

The unique Predator Polymag pellet is manufactured in cooperation with our US partner who owns a patent for that type of pellets. The pellet consists of two parts: hollow point lead pellets with inserted Polymer tip. High precision of all the parts and perfect assembly assure the shooter that he will never miss the target.

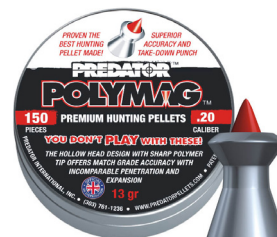

The patented Predator Polymag is a premium quality hunting pellet which combines a hollow head with a sharp polymer tip for unsurpassed performance on small game. Whether ridding your garden of unwanted pests or stalking your favorite hardwoods in search of squirrel, experience excellent accuracy and efficiency when hunting with Predator Polymags.

The Predator Polymag™ (polymer tip pellet) was designed specifically to be the most effective and efficient airgun hunting ammunition available.
