Dashboard

Schedule

Scroll down, select students and then mark them off.
You can mark them all off at the one time as attended or if the session is cancelled. You can also mark people off individually (eg. They do not attend)

You can cancel the session for rain etc.
Click on the + sign next to Status: Normal

If you cancel the session, we need to arrange to give people credits.
If so, you will need to contact one of the Administrators and let them know that the session has been cancelled. This can be done via SMS.

There is an SMS option at the bottom of the page in the class.

Credits will be allocated to people in the back end of the programme.
