The CHILLIT — Spin it to mix it!

*** **NOT DISHWASHER SAFE** ***

10/12/17 Oz CHILLIT (Beer Sleeve/Mixing Cup)

The inspiration behind our CHILLIT Beer Sleeve came from the following two concepts: a Coaster and a Coozy. You can either remove the can from the Sleeve for a sip, pick up the whole Sleeve to have a drink or even use it as a drinking cup. Either way you choose to use it, each Beer Sleeve is crafted with a tight-fitting inner diameter in order to provide a vacuum fit that securely holds your canned beverage. This is the only piece, in the drink line, that is available in three sizes (10oz 310g / 12oz 440g / 17oz 370g). Use them as a cup or a sleeve! The 10oz leaves part of the beverage can showing at the top. The 12oz will hide a 355ml can and the 17oz will hide the 440ml cans. Some customers choose to use the 12 and 17oz to prevent others from knowing what they may or may not be drinking and don't forget to charge them in a fridge or cooler!

2 Oz CHILLIT (Shot Glass)^{325g}

This is no ordinary shot glass as it's not your standard 1oz measuring device. This special piece is perfectly machined to measure 2oz at the brim and has a 1oz gauging line halfway. It is flawlessly machined to be weighted at the bottom and to feel comfortable in your hand.

5 Oz CHILLIT (Highball Cup)^{284g}

Regardless of your liquor of choice, this beauty is designed for the nights when you are looking for a hard drink on or off the rocks. Chill it in the fridge or freezer prior to use and fit up to 5oz of your favourite liquor.

20 & 30 Oz CHILLIT (Drink Mixing/Beer Stein)^{671g}

These customer requests for BIGGER have been a favorite for many. The idea behind the 18oz and 24oz piece is to utilize the spinning concept to mix your beverage of choice.

** The above 5 pieces (available as a set) were also designed to slide into each other. As each smaller piece fits into the larger piece, this feature is great for storage purposes. Or, use a spacer in-between the pieces to create the Alumination Cup to display on your bar! **

12 & 16 Oz CHILLIT (Unbreakable Wine Goblet)^{224g}

Wine drinkers we didn't forget you! This piece was created to hold 16oz of your favorite Red or White wine. It will be the last wine glass you will ever have to buy because it will never break!

Great for fidgeting as all pieces spin on hard surfaces too!!!

Complete your set at www.AluminationCanada.com

Wash before first use. For best shine, use warm soapy water.

JUST CHILLIT!
