

Evaluate the Evidence Be Informed

Strike #2

The NNU says strikes are rare with a mere 80 over the course of 10 years.

- That is 8 a year and 1 every 6-7 weeks – our schedules run 6 weeks long.

NNU may ask members to assist with sympathy strikes.

- While the circumstances allowing this to happen are specific, based on including a postal union worker on their demonstration at Dr. Baker's office, this seems like a likely scenario.

The NNU says that if a strike is called, they will help the hospital transfer patients or support staffing needs for patients who cannot be moved.

- This post on the NNU website would suggest otherwise¹.

Please support your fellow RNs by refusing to accept contracts at facilities on strike, or from the following agencies with a history of strike-breaking:

- Advanced Clinical Employment Staffing (ACES)
- Crisis Nurse
- FASTAFF
- Health Source Global Staffing
- Healthcare Contingency Staffing Services, Inc.
- Huffmaster Crisis Management
- Modern Industrial Services
- Modern Staffing & Security Consultants, Inc.
- Nurse Bridge
- TravelMax
- US Nursing/ US Nursing Corp
