Flexbar Panelguard Junior™

Helps Maintain Social Distance

Flexbar's new PANELGUARD JUNIOR™ is a Flexible, Modular Multi-Panel expandable system that can be used anywhere people are working closely together. Use on desks, counters, workbenches or table areas to provide physical separation and to help maintain social distance.

Easily installed, PANELGUARD JUNIOR™ can be safely used almost anywhere including:

- Offices
- Schools
- Sales and Customer Service Counters
- Labs
- Manufacturing Facilities

Flexbar's New Panelguard Junior™

The Flexbar PANELGUARD JUNIOR™ basic starter system has two modular panels, each 16"W x 36"H which are connected by a flexible hinge and opens 34" across. The simple construction conforms to fit both straight and angled setup configurations. Each panel has crystal clear high impact resistant LEXAN®, which gives employees protection while still being able to see and work comfortably. Add single or double panels to expand the system to your desired workspace.

Easily expandable to larger 3-Panel systems or more. Order as many of the 1-Panel expansions necessary to quickly make a barrier as large as you need.

Standard System with 1-Panel Expansion

For the Office:

- Creates safe, sturdy barriers between employees
- Freestanding design – No installation required
- Easily cleaned and disinfected
- Easily reposition wherever shielding is needed
- Quick and easy assembly with included stabilizer feet kit
- Made in the USA
