

Teach Your Kids About Money Early

Problem:

Schools don't teach financial wisdom. If parents don't, kids will repeat the same mistakes.

Bible Verse:

"Train up a child in the way he should go; even when he is old he will not depart from it." —
Proverbs 22:6

Action Steps:

1. Pay kids commissions, not allowance — money for work, not entitlement.
2. Teach them to save, spend, and give from every dollar they earn.
3. Be an example — let them see how you handle money wisely.
