

CLEANER POURS. LESS LABOR. MORE CONTROL.

THE CONCRETE BUGGY EZ-CHUTE

PATENTED ★ MADE IN THE USA 

GENERAL DESCRIPTION :

The patented Concrete Buggy EZ-Chute is a side-mounted, hydraulically operated attachment designed to provide smooth, controlled side discharge from a concrete buggy.

It allows contractors to place concrete precisely where needed while helping reduce spills, waste and cleanup.

KEY FEATURES :

UNIVERSAL FIT | Compatible with Allen Engineering, Whiteman and virtually all major concrete buggy brands.

PRECISION POURING | Hydraulic gate provides smooth, controlled concrete flow for precise placement.

NO EXTRA CONTROLS | Uses the same lever as the buggy's dump function to switch between conventional dumping and side discharge.

CLEANER JOBSITES | Helps reduce spills, wasted concrete and cleanup time.

QUICK CHANGEOVER | Quick attach/detach design allows the buggy to return to conventional dumping.

IDEAL APPLICATIONS :

- | | | | |
|-------------------|-----------------|-----------------------------|-----------------------|
| • Parking garages | • Sidewalks | • Isolation joints/Diamonds | • Grouting |
| • Elevated slabs | • Slab-on-grade | • Pool Coping | • Confined placements |

COMPLETE KIT INCLUDES:

- Mounting plates and hardware
- 3-way valve
- 24 in. poly chute
- hydraulic cylinder
- hydraulic hoses and fittings
- vibrator assembly
- handlebar switch
- hose blocks & spacers
- installation hardware
