PROJECT ADDRE	SS						
PROJECT/OWNER	CT/OWNER NAMEPARCEL						
FIRE FLOW INFO	ORMATION:						
WATER MAIN	<u>1:</u>						
Location of nearest main capable of supplying at least 500 GPM							
Fire flow ava	ilable at 20 psi is *	GPM f	or	minutes.			
Estimated sta	tic pressure* at hydrant location is	S	psi.				
$\underline{HYDRANTS:}$ Contact City of Edgewood to determine if Applicant must upgrade or install a fire hydrant(s).							
Distance from center of property line frontage to indicated hydrant measured along probable routes of fire							
apparatus travel is feet. Hydrant number							
*Values are representative of the distribution system at the fire hydrant location indicated on the attached map. Fire flow may be less due to fire hydrant configuration and/or port sizes.							
A contract <u>has</u> / <u>has not</u> been signed with the applicant for water service.							
The above information is an accurate account of the existing or necessary water system facilities.							
FOR PRELIMINARY SHORT PLAT OR SUBDIVISION:							
We understand that this document, in absence of a legal contract, constitutes certification of willingness and ability to provide water service. It is further understood that, in the absence of an approved comprehensive plan, additional engineering approval has been obtained which demonstrates that facilities to provide water service to this project are available or can be constructed.
