

SONIA SUDAN Interiors

BENEFIT OF HIRING MY SERVICES:

1. MAKING TIME FOR WHAT MATTERS

My job is to save you time which is something you can never get back.

As a professional I know how to design a space.

- The process and considerations need to curate our design vision.
- what items to source
- where best to source from

How to put it all together for you is what I do every single day.

What does your time mean to you?

2. ESTABLISHING A PLAN

Knowing where to start can be the stumbling point for many homeowners. My comprehensive 3D design packages **simplify** the process. These plans help you to clearly visualise your stunning new space which enables you to make informed decisions **BEFORE** committing to a renovation or decorating project.

3. SAVING YOU MONEY

'If you think hiring a professional is expensive, wait until you hire an amateur.' -Red Adair.

Looking to friends, neighbours & even a GC for design advice can end up costing you a lot of money. I know this because I hear it from clients who looked to save a few bucks by not hiring a design professional the first time they renovated. For their next project, they called SSI.

4. ALLEVIATING STRESS

There are so many decisions to be made in every aspect of a design project that it can quickly become overwhelming, especially under constrained timelines. I assist you in confidently choosing finishes that you will not only LOVE but that will flow beautifully throughout your entire home & function as you require for your lifestyle. Ask about buying 'blocks of design time'.

5. PEACE OF MIND

I am 100% confident in the job that I do. I use suppliers with outstanding reputations & emphasis on attention to detail. Customer service is my top priority. I am proud to be reviewed on Houzz and Google with 5-star reviews.
