Water will be provided for weavers in the weaving room. Bring a jacket if you tend to feel cold. November in Oklahoma can be a cold time of the year.

**WEAVING SKILL LEVELS**

Please evaluate your skill level, not only for your total weaving experience, but also for your experience using the techniques offered in the classes you are considering. Remember it is not fair to the instructor or the other students to take a class that you are not ready to handle.

**Beginner Level**

The beginner weaver has little or no weaving experience having woven only a few baskets. They need more practice with basic weaving techniques, bases and shaping. These weavers are becoming proficient in basic weaving techniques, including: over/under weaving, start/stop weaving, twining, and rim lashing. They are learning to control shape and will be introduced to new pattern weaves such as twill, different twining methods, and rim and handle finish variations. Please Note: Additionally, if you consider taking a class in a material you have never used, you will be considered a beginner in that class.

**Intermediate Level**

Intermediate weavers have gained proficiency in weaving techniques. They are able to begin with ease and have mastered several weaving techniques. They do not have difficulty setting up bases, twining, completing over/under weaves and creating rims or using the materials offered in a class.

**Advanced Level**

Advanced weavers are proficient. They have mastered weaving techniques and are ready to take on more challenging projects. Teachers are confident these students have achieved this skill level when attending class. Basic skills are not reviewed due to time constraints. These weavers are able to design baskets on their own, but require new challenges.

**All Levels**

These classes are offered to students of all skill levels from Beginner to Advanced.

## Your Retreat Instructors

**Jan Beyma****Class #s:** FR1, SA11, SA13, SU22**Email:** [beyma@bellsouth.net](mailto:beyma@bellsouth.net)

I have been teaching and weaving baskets for over 30 years. I have taught at NCBA, GBA, KBA, Blue Grass, MBO, Odyssey, Oklahoma, Stateline, Guilders Weave and TBA conventions, seminars and for our local Port City Guild. I enjoy weaving Nantucket baskets. I love to stimulate the interest of basket weaving and sharing weaving tips with others that I've learned over the years, while also learning new tips from my students. I consider myself a non-traditional Nantucket weaver as I find common items to use as molds for my classes. I usually will incorporate a twill weave of some kind into my baskets.

**Nori Bykerk****Class #s:** SA10, SA15, SU25**Email:** [nori.bykerk@verizon.net](mailto:nori.bykerk@verizon.net)

I had no idea that real people made baskets until I met someone who did. She was kind enough to teach me, and I was hooked. I have been making baskets for over 30 years and have taught classes at schools, churches, guild meetings and the TBWA Conference. I was an active member of guilds and associations in Michigan and Indiana before moving to Texas. I am now an active member of the DFW Basket Guild.

Julie has been weaving since 1990 and teaching since 1993. She published her first book in 2010 and is working on her second reflecting her own designs and tidbits that will assist any level of weaver. Julie's baskets have been exhibited in galleries and have won several awards. She has taught at conventions and for private groups in over 35 states. She is currently working out of her studio and store located in Grand Junction, CO. Her favorite part of teaching is seeing the joy on her students faces when they finish their first basket.

I started weaving and never recovered. It was shortly after that I began adding my own adaptations as well as creating my own designs. About that same time, I also began sharing what I had learned with others. I have taught basket weaving with Ozark Folkways and Lake Ft. Smith State Park. My baskets have been exhibited at a variety of arts & craft fairs in the area, along with acceptance for show in the national Penwomen's Art Show. I have always been fascinated with the weaving process and seeing what happens with the addition of color. Experimenting with alternative materials is also an interesting and fun experience that keeps me trying new ideas.

I have been weaving baskets since 2003. I have taught at guild meetings where I have been the President of the Oklahoma Basket Weavers guild for about 6 years. Before that I was the retreat Chairman. I have been publishing the newsletter for more years than I can remember. I have taught basket weaving at a career tech and sold baskets at craft shows and in several art galleries. In 2018 and 2021 my baskets won Best of Show at the Oklahoma State fair. I love sharing my love of weaving and believe everyone can learn to weave one step at a time.

She regularly volunteers at local festivals, schools, and scouting events. Linda is a member of the Oklahoma, Texas, and Missouri Basketweaving Guilds as well as several of the Texas local guilds.

I have been weaving baskets since 1984, when at that time I owned a quilt/x stitch shop. While ordering fabric for the shop I noticed a weave your own basket book. Well I was hooked. Since then I taught art in the public school system for 28 years continuing to weave and teach weaving classes from my home. After retiring I have had the joy of teaching at basket weaving conferences in Texas, Oklahoma, Michigan and Missouri. There is not a better retirement job anywhere. Recently I have been honing my basket skills and along the way learning new ways to connect teaching skills with students and learning along the way.

Over 25 years after weaving my first basket, I am still as excited about weaving as I was when I showed off that first basket! Weaving each day is my way to relieve stress! I have been teaching classes for over 10 years at a few conferences and to small groups in Central Texas. What I love the most is to watch a skeptical new student start a basket and to see their amazement and satisfaction of completing that first basket.

I was introduced to basket weaving about 25 years ago and quickly became addicted. I've been taking classes faithfully since then with every teacher I had access to and every medium I could. Now I'm trying to pass on all the wonderful tips and tricks I've learned. It's so rewarding to design my own baskets to teach.
