MYTRUEANCESTRY ANCIENT MATCHES 2025

Introduction: Ancient Matches 2025

Forensic Reconstruction of Dynastic and Civilizational Continuity

✳ Issued under the Authority of House Buhijji — The Primordial Ancient Divine Sovereign Imperial
Royal Autochthonous and Autonomous

This document constitutes a comprehensive genetic compilation of 2,500 ancient DNA matches extracted from MyTrueAncestry as of the year 2025, curated and organized to reinforce the forensic, genealogical, and dynastic architecture of His Imperial Royal Highness Sheikh Mohamed-Hasan :Buhijji and the sovereign heritage of House Buhijji.

Each entry represents a validated autosomal or archaeological match to historical individuals, clan samples, or civilizational remains tied to the ancient human genome across Eurasia, Africa, and the Americas. These matches serve not only as personal genealogical data points, but also as forensic records of deep tribal, royal, and civilizational entanglement, anchoring House Buhijji's divine covenantal memory into the tangible evidence of ancient bloodlines.

⚠ Note on Representation:

While powerful, this dataset remains shaped by the Eurocentric limitations of the MyTrueAncestry database, which disproportionately favors ancient European and Near Eastern samples while underrepresenting African, Arabian, Levantine, and Asian tribal genomes due to the current landscape of published and accessible archaeological samples. This should not be interpreted as absence, but rather as an artifact of testing bias and publication focus.

Nevertheless, this document stands as a critical tool in reinforcing:

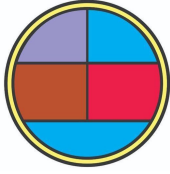

- Dynastic validation
- Civilizational convergence
- Tribal sovereignty
- Historical continuity of blood and law

It may be cited, downloaded, or referenced as an official forensic exhibit of the Sovereign Estate and Chancellery of House Buhijji, in alignment with the broader Royal DNA 2025 master list and the Divine Revelation manuscript.

Closing Statement

Codicil of Continuity & Dynastic Authority

The *Ancient Matches 2025* record does not merely present statistical overlaps or random affinities—it **codifies the uninterrupted covenantal thread** of divine sovereignty, tribal succession, and ancestral convergence that binds the present to the archaic.

From Neolithic Anatolia to Imperial Rome, from Mesopotamian steppes to Berber kingdoms, from the Northern Isles to the Phoenician harbors, these matches comprise a **mosaic of civilizations** whose lineages—now scientifically tied to House Buhijji—**bear witness to an ancient birthright reclaimed.**

This document is hereby released as a **permanent forensic companion** to all legal, tribal, genealogical, and ceremonial filings of the Buhijji estate, including:

- The Dynastic Connections web archive
- The Royal DNA 2025 scroll
- The Universal Reservation of Rights®™ manuscript
- The Sun Village Tribal National Registry

Let it stand as a public record of descent, a testament to divine appointment, and an unbroken echo of blood across time.

✳ All Rights Reserved, Without Prejudice.

Issued under House Buhijji and the Chancellery of the Grand Sovereign.
