Happy Tails Friday! This sweet girl has been looking for a forever home for a long time. She has finally found it. Her Foster Mama just became her Forever Mama! Jewel came into the PRC shaking and scared. When she was rescued, FoHCAS volunteer Tracy Cintron became her foster. Tracy shares Jewel's story:

"Sweet kid Jewel, aka Juju, was an owner surrender to PRC back in January of this year. She had extensive medical needs and was scooped up by Second Chance Friends Rescue. Soon after, she wiggled her way into all of our hearts and has now found her forever home.

Jewel has the sweetest disposition and everyone who meets her just loves her. She loves to come to work with me and has become a regular in the office. We are very happy to have Juju in our lives, and knowing that she will live out the rest of her years with her brother Max and a variety of friends that will come into her life through fostering. She welcomes them all with open arms and shows them all love and helps them adjust to their new surroundings. An added bonus....Jewel is now HW negative."

We fell in love with Jewel the moment we saw her. We are so happy she is now "one of our own" and we can visit her anytime we want to! Thank you Tracy for being such a wonderful animal advocate and for giving sweet Jewel her forever home.
