Custom Order Form

Select a category or choose to customize the items in the box. Send us the age, gender, and likes/dislikes for the recipient and we will customize a gift just for them. This will take extra processing time as we will hand pick every item from things we do not have on hand. We can send candy, chocolates, flowers, jewelry, blankets, custom clothing items, whatever you choose. This can be one or multiple items. We can also add a card that best fits the occasion. There are different tiers for this, so make sure you pick the one that works best for you. If you wish, you can send the amount you wish to spend, and we will get things in that range. Gifts in the boxes will be retail valued at the price you pay. We will coordinate with you on everything.
