Next Generation Self Powered Air 2 Water Systems

About us

WE Co. is an advanced solutions company with advanced patented Water, Cooling and Power solutions coming together to create the world's first and only Patented Self Powered Commercial / Military grade Air 2 Water Generation system.

- **Unlimited green energy source - create water 24x7x365**
- **Scalable Water Generator able to create 4,000 gallons to Millions of Gallons of water per day**
- **Patented Water, Power & Cooling technology**
- **Patented Power technology**
- **Patented filtrations systems**
 - **Eliminate Air Contamination**
 - **Eliminate Chemicals Contamination**

(Highly Confidential)

Our Solution

The FEG 4000 “Fontes Eternas Generator - aka Enteral Foundtain”

Unlike the previous generation of water generators the FEG 4000 is utilizing TNG patented HCH & iSU technologies to create Energy efficient flash freezing and Power technology to give the FEG unlimited mobility, incredible capabilities above and beyond that of the previous systems.

- Our 10' Mobile Unit creates 4000 gallons per day
- Our Larger Units creates over 8000 gallons and scale to millions of gallons per day
- Self Powered - zero carbon footprint
- Zero PFA or PFC
- Zero pollutants
- Longer life cycle and fewer moving parts.
- MADE, DESIGNED & BUILT IN USA

(Highly Confidential)

FEG 4000 - HCH Technology

The FEG 4000 “Fontes Eternas Generator” key technology is the HCH, able to efficiently create water anywhere in the world 24x7x365.

The HCH system is currently being used in TNG’s patented FEG 4000 Military grade mobile solution.

- **Power consumption:**
 - Self powered - 2.5kW @ 20 amps
- **100% Green**
 - No CFCs
 - All materials are green or recycled

(Highly Confidential)

WE Co. - Cost Model

Our cost model is simple. We offer our customers a simple five year subscription model that provides them with Peace of Mind and Pure Flowing Water 24x7x365 Any where in the world.

The cost is .05 cents per gallon, which includes maintenance and free upgrades as our technology evolves.

You get a life time of water at a simple subscription price frozen for five years at .05 cents per gallon.

- No PFA or PFC
- No viruses
- No Pollutants
- Just Pure Clean Water

(Highly Confidential)

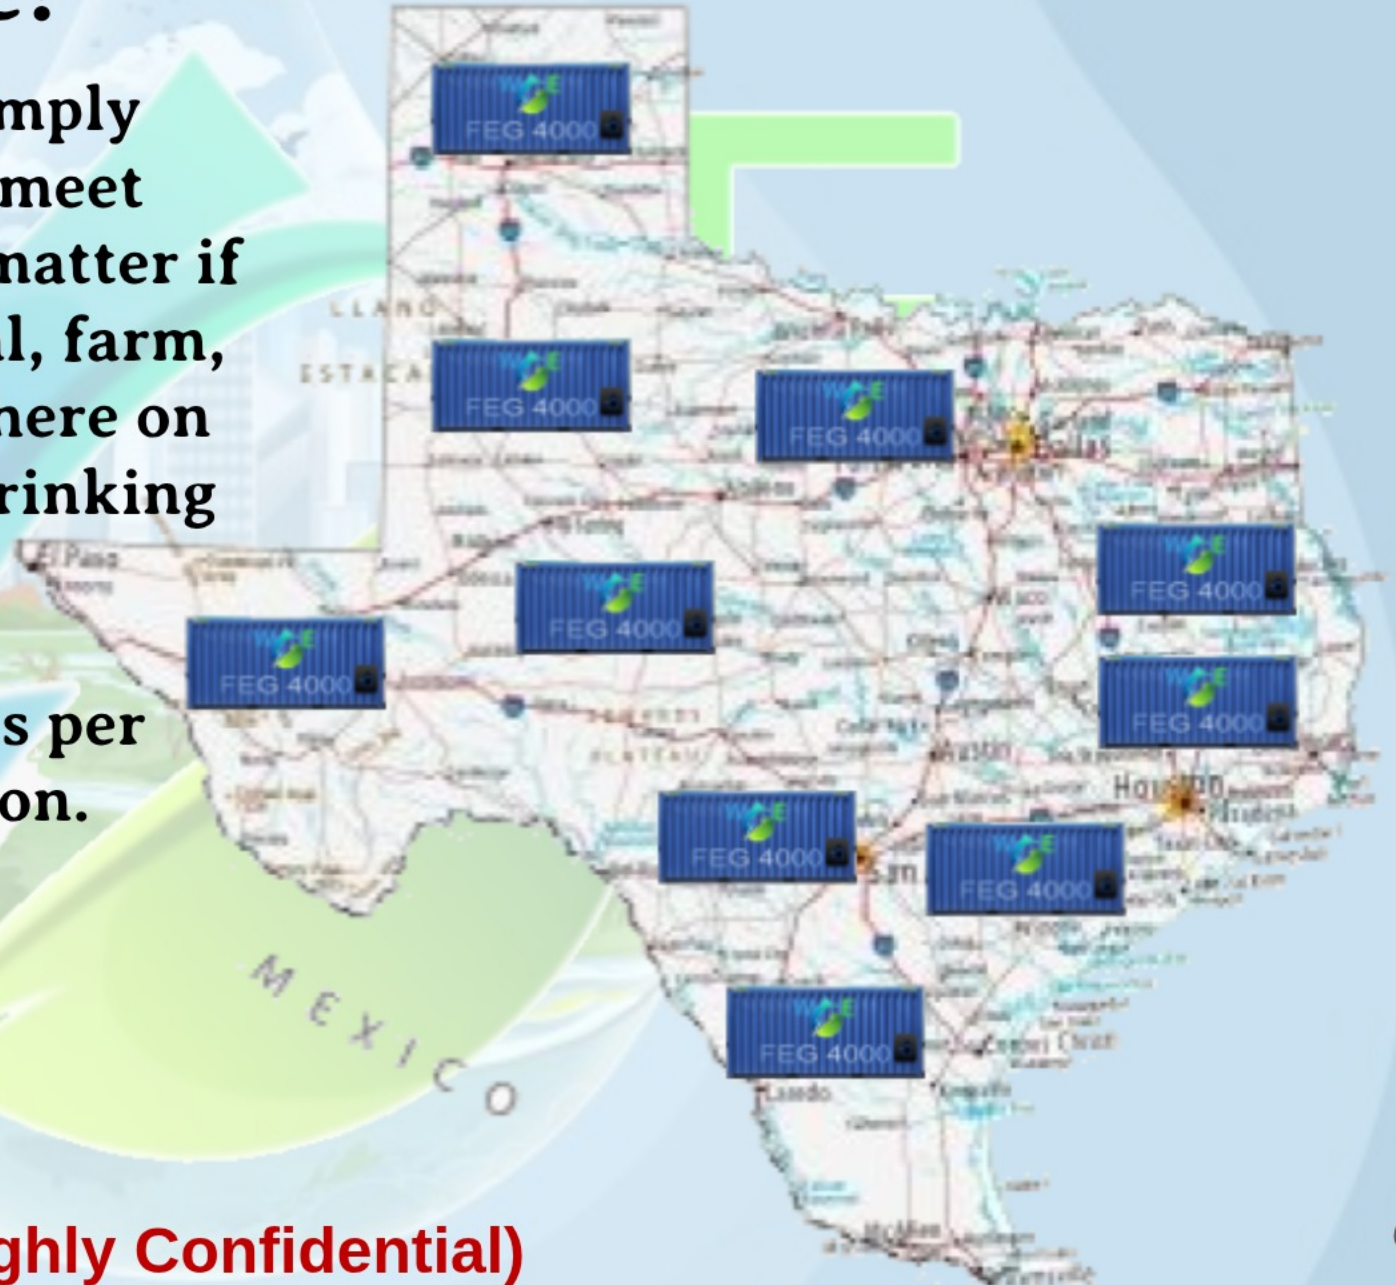

WE Co. - How we scale!

We work with your engineers to simply scale out units across your area to meet the demand for water. It does not matter if its a housing development, hospital, farm, community or remote area. Anywhere on planet Earth WE can create pure drinking water for you 24x7x365!

- Unlimited scale at only .05 cents per gallon for a five year subscription.
- No PFA or PFC
- No Pollutants
- No water shortages.
- Pure clean water 24x7x365

(Highly Confidential)

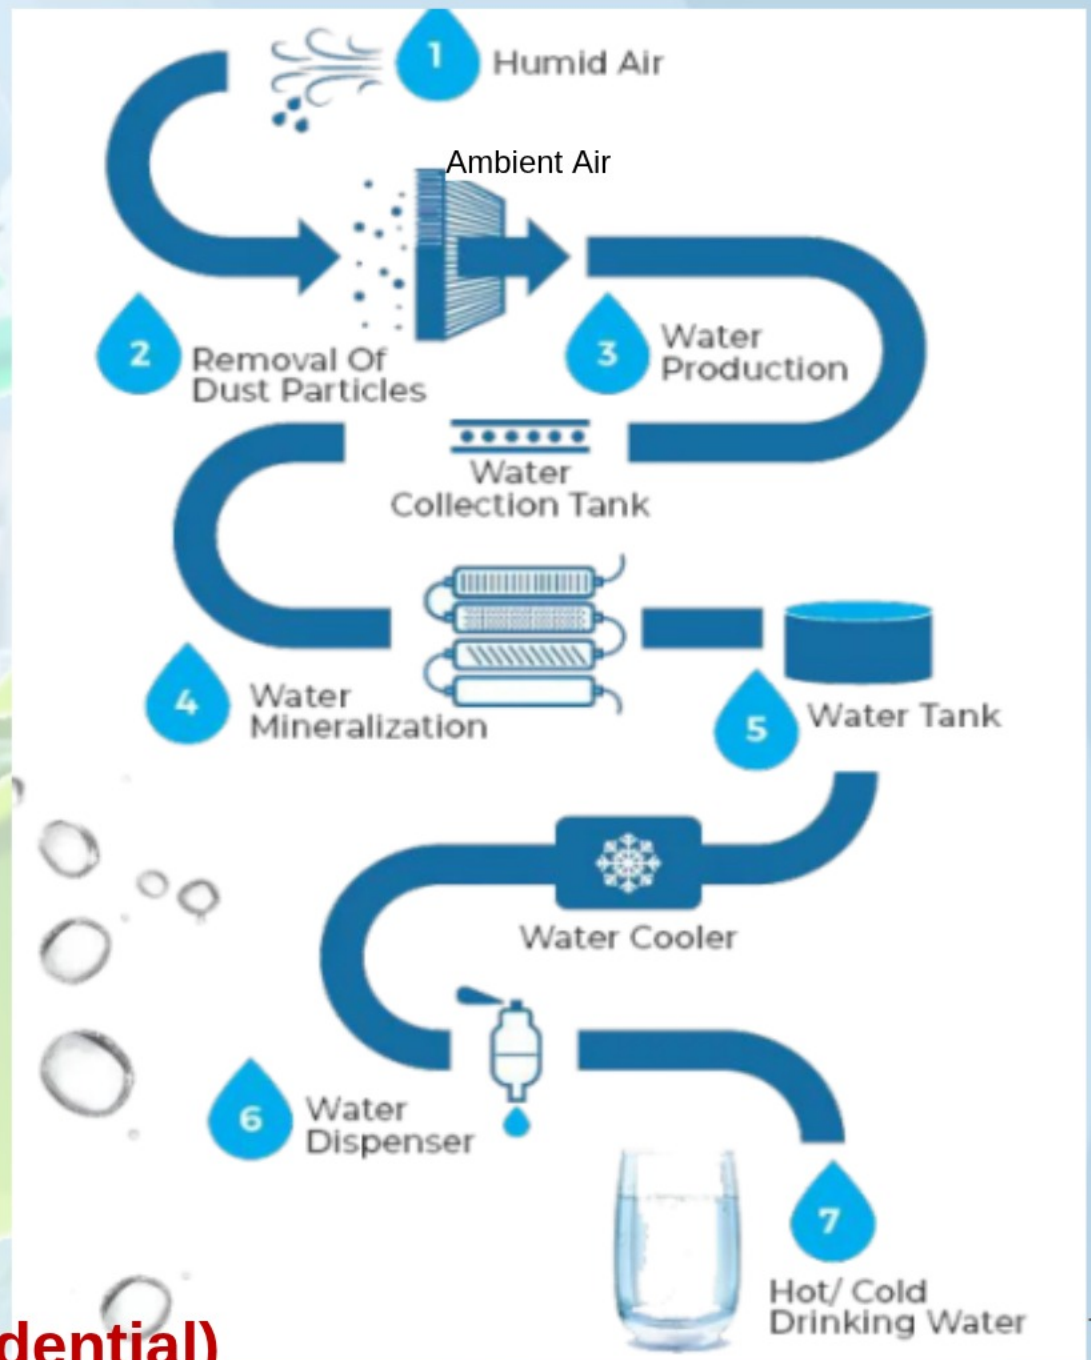

Summary

W.E.Co. and its partners have created the ultimate AWG Engine to be known as the “Fontes Eternas Generator” or FEG 4000. Capable of incredible scale and true 24x7x365 operations.

W.E. Co. (WECO) will enable the world to stop drinking contaminated water, enable all to enjoy water on the move or at municipal scale.

No forever Chemicals, no pollutants. Just Pure Eternal Springs of running water 24x7x365.

Michael Berg - Founder

Michael created the first AWG Water generator and its patents. He was key in the engineering and development of the first generation solution. Michael is key to the success of the next generation AWG the FEG 2000. Michael has vast experience in commercial finance and mergers and acquisitions. He founded Bison Commercial Leasing Corp., a small ticket equipment lease and finance company, which succeeded to become the second largest independent private Lessor on the East Coast, leading to invites to the annual meetings of such banks as U.S. Bank, Continental Bank, and EAB as a policy influencer. Mr. Berg held the positions of President of Credit Suisse Holdings and Special Asset Coordinator for New Bank. His structural expertise has been invaluable to W.E. Co.. Michael looks forward to changing the world and leaving it a better place for all.

John Robert Jensen - Founder

John is a proud United States Navy Veteran having served as an Electronic Warfare Operator with VP-46. Graduating top of his class, John excelled in academics and in his service career. Set many military academic records, in effect to this day. For this, and his commitment to technological innovation, he has been awarded multiple Military and Presidential awards. John's passion for technological innovation, and a commitment to build a better world, has driven him to build the World changing solutions.

John has built a successful career in the civilian world as an IT Consultant. With a natural curiosity of all things technical, and a certified IQ exceeding 159, John has delivered value creating solutions for the Department of Defense, Wall Street Financial Services and numerous federal clients including NAIC, AIA, Lockheed Martin, NASA, Northrop Grumman, IRS, US Navy and US Air Force. John's background in Electromagnetic spectrum from US Navy has given him a unique insight into all things Tesla. Led to John build the first Mag Drive in 2015, redesigning the prototype to its current production ready MagDrive - MagLev system. John is pleased to hold the only patent for hyper converged Eco systems. He is looking forward to building a better world with numerous more trade secrets pending for submission as patents on advanced technologies.
