Outdoor Fitness • Multisport

Sport & Well-Being In everyone's reach!

Given the now well-known risks associated with a lack of physical activity, things are beginning to **MOVE**, everywhere! The decision makers in local authorities and private parks are well aware that outdoor sports equipment, such as Multisports fields and Fitness areas, are **WINNING** investments supported overwhelmingly by everyone: children, teenagers, adults and pensioners.

Things are also moving at Husson International, because after 5 years' R&D with the participation of sport and health specialists, I am delighted to tell you about our new **SPORTS** catalogue, including our new **Fitness Out&Fit®** and **Multisports Color'ado®** ranges.

Innovative concepts, complete programmes accessible to as many people as possible, exclusively-designed apparatus, quality, safety and durability characteristic of the Husson teams, and made in France.

Without a doubt, **Out&Fit®** and **Color'ado®** offer undeniable benefits, finally putting Sport & Well-Being within Everyone's reach!

See you soon, on your pitch!

Sportingly,

Daniel Husson
Chairman
HUSSON International

"I sometimes think the body is smarter than the mind.

We must learn to listen to it and follow it..."

Ashton James Eaton: double Olympic champion, double world champion, world record holder in the **Decathlon**.

Physical inactivity

The facts:

- Worrying drop in physical activity, according to the WHO (2): more than 80% of teenagers do not exercise enough.
- Imbalance between calories consumed and calories burned.

Main consequences

For health:

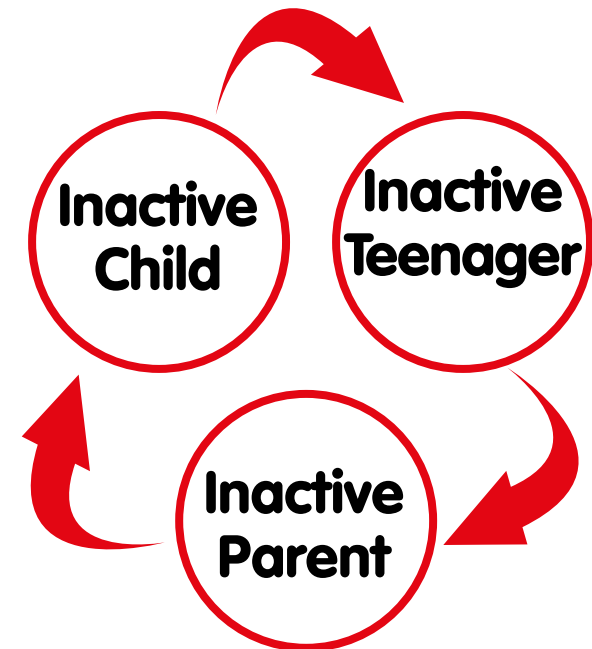

- Rise in the number of people who are overweight or obese
According to the WHO (2), worldwide: 2 billion people are overweight or obese (around 40% of the world's population).
- Diabetes, heart disease, osteoarthritis and deaths are on the rise.
- Mental health issues (depression, etc.).
- Discrimination.
- Loss of independence.

Other known consequences:

- The health care and productivity costs of the global "pandemic" of physical inactivity are estimated, by country and according to studies (2) at between 0.4% and more than 1% of GDP.
- Loss of productivity.
- Pessimism.

"Physical inactivity is just as dangerous as smoking"

According to journal The Lancet (1)

(1) **The Lancet**: British medical journal

(2) **OECD**, The Lancet, Morgan Stanley.

Physical activity and sport

What people want (1):

- 60% want to be able to do more exercise.
- 61% want to engage in outdoor sports near their home.
- 67% want open, universal access to sports facilities.(1)

Solutions:

Locally:

- Encourage local residents to engage in one or more sports on a regular basis.
- Develop local, well-equipped sports facilities such as multisports enclosures and outdoor fitness areas.

Individually (children, teenagers, adults and senior citizens):

- Exercise regularly.

Objectives:

- Better health, fitness.
- Increased life expectancy and quality of life.
- Improved sense of well-being.
- Stronger social ties and relationships between generations.
- Less public spending on health.
- Optimism.

67%

of people want open,
universal access to
sports facilities.(1)

(1) BVA Sport survey (2015 and 2016) on sport and exercise trends; "Senior citizens' expectations" (silver economy) survey (2014).

Out&Fit

The new Outdoor Fitness Range

Out&Fit® is Husson's new Outdoor Fitness Range. The Out&Fit stations and apparatus® create fitness areas for everyone, outdoors, completely free, open access and in all weathers.

EASY TO INSTALL, SIMPLE TO USE.

All the benefits of sport & well-being in the open air without the drawbacks, thanks to shelters that protect from the sun and rain. BREATHE and enjoy wide open spaces with **Out&Fit®**.

A programme to make you feel at ease anywhere and to make you happy: **Out&Fit®** stations and apparatus will be located mainly in public places (parks, sports clubs, schools, swimming pools, etc.) as well as private premises (holiday clubs, hotels, campsites, etc.).

*Registered designs, patented systems.

DESIGNED FOR EVERYONE:

Out&Fit® apparatus is designed for safe use by everyone:

- Teenagers, adults, older users and people with reduced mobility.
- Men and women.
- Beginners, experienced or expert sportsmen and women.

Out&Fit®, designed for everyone, with many pieces of apparatus accessible to people with reduced mobility.

These amazing pensioners!

3 Out&Fit ranges:

The new Out&Fit® concept offers more than 200 fitness exercises over three, complementary spaces.

A complete and ideally designed programme, including 50 pieces of apparatus with more than 200 exercises for weight training, stretching, balance and stamina.

A very well-thought out design developed with a team of sport and health care specialists.

STRENGTH AND TONING FOR EVERYONE

Weight training is a great way to improve your physical condition. A muscular and toned body is stronger, more resistant and better balanced. But you can't improve your fitness without ... effort!

Olivier, sportsman and physiotherapist, 27
"I train regularly indoors but this is ideal for training outdoors, especially on this very complete equipment."

André, sportsman, 41
"This new fitness apparatus means we can do our weight training outdoors. Several of us can go, whenever we want. It's great and what's more, it's free!"

Chloe, French team gym champion, 18
"It's more motivating outdoors. The abdominal, power tower and shoulder press apparatus are well designed and allow me to strengthen my core without having to go to the gym."

Félicie, 80-year-old sportswoman!
"I really like this new equipment set up in the Orangerie Park in Strasbourg. Pierre, a physiotherapist, who was there when it was opened, clearly explained the exercises to me and I am thrilled to be able to use the power tower!"

Timothée, gymnast and break dancer, 21
"These straps mean you can do lots of core exercises outdoors, like fly curls, chest presses, bicep curls and squats. It's also a lot of fun. And I have also found others that are not mentioned on the panels."

Out&Fit® Gym STRENGTH AND TONING FOR EVERYONE

An astonishing figure⁽¹⁾: 80% of back pain is due to weak muscles. That's why it's important to do core exercises regularly – to strengthen your abdominal and upper and lower back muscles around your spinal column. With the **Out&Fit® Gym** spaces, you can now improve your body and your health whenever you want, outdoors, and in any weather. **Out&Fit® Gym** apparatus has been designed along with sport and health care specialists and is efficient, ergonomic and fun all at once. The equipment is suitable for everyone – women, men, teenagers, adults, senior citizens, whether you're a beginner, experienced or an expert. It's universally popular. The **Out&Fit® Gym** programme is complete and encouraging, and the exercises are intuitive and attractive.

Thanks to a dozen pieces of apparatus, it is possible to work out under excellent conditions, with more than 140 basic activities to strengthen your main muscle groups. Other exercises and training programmes developed by our coaches will be available to download soon.

(1) Source: Didier Reiss and Dr Pascal Prévost, "The scientific and practical guide for all".

How does it work?

The main **Out&Fit®** apparatus and exercises are intuitive and require no special experience. There is a general information panel showing key instructions, while specific instructions can be found on each piece of apparatus (benefits and exercise difficulty, etc.).

A QR code to download a free app will be available shortly, allowing users to see the exercises, training programmes and **advice from our coaches online**.

EASY

MEDIUM

DIFFICULT

Out&Fit Stretching

RELAX

What is "stretching"? We all stretch in the morning when we wake and are tempted to do it again when we get off a chair after a long meeting!

Out&Fit® Stretching RELAX

Out&Fit Stretching

What's more, stretching isn't just for experienced and expert athletes – it's something EVERYONE can do! Stretching is a gentle movement, where you push your body to its limit without forcing it too hard or causing pain.

Stretching has many benefits:

- **Increases the flexibility** and elasticity of your muscles and tendons.
- **Fights the effects of ageing:**
a stretching programme helps you become more flexible and improves the range of your joint movements.
- **Prepares your body before exerting yourself.**
- **Limits the risk of injury during exertion:**
a flexible muscle is more resistant than a tight muscle.
- **Helps you restore flexibility more quickly after exercise.**
- **Relieves stress:** stretching relaxes tense muscles, which are normally associated with stress.
- **Helps you relax** to enhance well-being and relaxation.

With Out&Fit® Stretching spaces, everyone can enjoy the benefits of stretching, whenever they want, outdoors – women and men, adults and senior citizens, people with reduced mobility, etc.

Out&Fit® Stretching is a complete, **guided** and **motivating** programme of more than 25 highly beneficial stretching exercises that help you maintain and improve your health and fitness.

The stretching exercises are completed on an innovative **Out&Fit® Stretching station*** and an **exclusively designed bench***. They are easy to use, instructive, and fun at the same time.

Out&Fit® Stretching is unique*.

It helps you dispel tension and invites you to look after yourself, to feel better in yourself, both physically and mentally.

*Registered designs, patented systems.

Out&Fit Training

BALANCE AND STAMINA

With Husson Out&Fit® Training, you can improve your physical condition and your balance while having fun.

Out&Fit Training

Out&Fit® Training BALANCE AND STAMINA

Also known as cardio training, the Out&Fit® Training range combines weight-lifting and cardio-vascular training to work your whole body. Accessible to a wide public, the programme offers numerous exercises on exclusive pieces of apparatus: Ski-Training, Cycling, Hand-Cycle, Skate-Training, Rotating discs, Twister, Obstacle course.

*Registered designs

VERSION WITH COVER, SPORT THEME

VERSION WITHOUT COVER, PARK THEME

Out&Fit®

TECHNICAL BENEFITS

- **An innovative concept:**

A new, exclusive design* with 3 ranges (Gym, Stretching, Training), 2 versions (with or without cover) and 3 themes (**Park, Sport, Urban**).

- **Ease-of-use and dimensions:**

The **Out&Fit®** stations and apparatus are designed to be easy to use, allowing everyone to exercise and relax outdoors, in the best conditions and in the ultimate comfort.

- **Safety:**

The **Out&Fit®** apparatus is designed according to a strict set of specifications aligned with the requirements of the new EN 16630 standard. The equipment is then tested and approved by an independent laboratory. They are designed for adults and teenagers over 14 years old.

- **A 10-year guarantee:**

Guaranteed parts: non-movable metal frame and apparatus, HPL panels. Husson guarantee terms: refer to Husson's terms and conditions of sale (on the final page of the current price list).

- **Promoting sustainable development**

- With its shapes, themes, colours and transparent design, **Out&Fit®** equipment blends seamlessly into any environment.

- The apparatus is made from environmentally inert materials and surface treatments that are kind to nature throughout their lifespan and can then be recycled, just like steel.
- Husson equipment is known for its longevity – yet another way we support sustainable development!

- **Simple and economical maintenance:**

The use of stainless steel, steel (with an exceptional double surface treatment) and a unique assembly system* (across all Husson ranges) means that the apparatus is extremely easy and cost-effective to maintain.

*Registered designs, patented systems

Out&Fit®

TECHNICAL BENEFITS

High-quality materials

- 1 Frame/structure:**
galvanised, thermo-lacquered steel posts
(diameter: 89 mm, thickness: 3 mm).
- 2 Apparatus:**
stainless steel, passivated after manufacturing.
- 3 Other apparatus:**
hot-dip galvanised and thermo-lacquered
stainless steel with fine textured finish for
good "grip" and excellent resistance to
scratching and abrasion.
- 4 Covers:**
made from very thick rotary-moulded HDPE
(High Density Polyethylene) thermoplastic,
colour-compounded and reinforced with a
tubular steel frame. Transparent central part
made from impact-resistant polycarbonate.
- 5 Metal sheets:**
laser-cut steel, galvanised and
thermo-lacquered.

STRENGTH, BALANCE AND CONTROL

Street Workout, also known as “**Street Gym**” or “**Callisthenics**”, dates back to the Olympic Games in **Ancient Greece**.

Callisthenics comes from the Greek words kallos (beauty) and stenos (strength).

Today, Street Workout is a popular outdoor fitness discipline, accessible to everyone, that combines **weight training and often spectacular “Freestyle”** (street gymnastics) moves.

Street Workout is becoming increasingly popular in Europe, with more and more men and women of all ages and levels taking part, and several teams emerging to develop the discipline. Often, “**WorkOuters**” or “**StreetWorkOuters**” still carry out their discipline on street furniture (benches, lamp posts, poles, playground equipment,

fitness trails, etc.). **Husson** first uncovered this new discipline more than 10 years ago, when the first generation of its **Color’ado®** Outdoor Fitness equipment, dating from 1991, was regularly used by “**WorkOuters**”.

Working with sports experts, **Street Workout** associations and the Strasbourg-based “**BarStras****” team in particular, **Husson** was one of the first companies to invest in this emerging discipline, introducing the new **Out&Fit® SWO** spaces.

* The 100-strong “**BarStras****” team successfully takes part in European-level Street Workout competitions.

Out&Fit SWO

STRENGTH, BALANCE AND CONTROL

Working with our experts, we designed the **Out&Fit® SWO Pro** zones for elite "StreetWorkOuters" and the **Out&Fit® SWO Training** zones for everyone, including beginners and people with reduced mobility.

Out&Fit SWO JWO-0104

The design of spaces for **pre-teens and teenagers** is a relatively recent concept, and Husson was one of the first companies to become involved in this area – more than 25 years ago!

This section of the public is rightly demanding and critical, known for its strength and dexterity.

Pre-teens and teenagers are not willing to accept standard solutions, instead needing clearly identified areas where they can develop freely at their own pace.

Color'ado® is everywhere.

Thanks to some in-depth work and numerous life-size tests, **Color'ado®** Multisports enclosures have quickly reached maturity. Today, there are thousands of sites in Europe and around the world where teenagers can enjoy the freedom brought by **Color'ado®**!

Big cities, towns and villages have filled a gap by installing sport and leisure facilities that appeal to **pre-teens and teenagers**.

Minimum space, maximum versatility:

MINIMUM space, MAXIMUM versatility: with an area of no more than 24 x 13 metres, the game can begin!
More than 20 sports that anyone can play, inside and outside the enclosure.

Color'ado® Multisports:
football, basketball, handball, volleyball, badminton, football tennis, quick soccer, roller basketball, cycle ball, etc.
Plus, optional extras: roller hockey, cricket, tennis, table tennis, table football, fitness, stretching, training, street workout, athletics, etc.

Color'ado® Multisports enclosures

A genuinely ATTRACTIVE SPACE:

In the country or in the city, at a leisure centre or holiday park, **Color'ado® Multisports enclosures** provide new spaces for freedom, sport and activities.

The IDEAL PLACE to meet:

Being active is a great way to get people talking, socialising and spending time together.

Pre-teen and teenage girls and boys will simply love **Color'ado® Multisports enclosures** – and when they love something, they treat it with respect!

Encouraging PHYSICAL ACTIVITY:

Health specialists recommend physical activity as a way to reduce the risk of obesity among children and teenagers.

By installing a Multisports space, we give them the desire to PLAY SPORT!

The spirit of FAIR PLAY:

According to specialists, playing sport is a great way to keep young people out of violence and is a springboard to adulthood. **Color'ado® Multisports** instils the values of sport and fair play among players on the pitch, and among spectators on the sidelines.

A WINNING investment:

Reasonable up-front costs, outstanding longevity, negligible running costs...

In short, a winning investment that EVERYONE will love – pre-teens, teenagers and adults alike.

A truly SPORTY design:

Designed with teenagers, for teenagers. Our designers have devised a dynamic, sporty look.

Blending seamlessly into the ENVIRONMENT:

Our designers have opted for a transparent look, with exclusive* translucent panels and themes featuring harmonious colours: "Park", "Urban", "Sport", etc.

Open all year round

color'ado Multisports covered

- **Never miss a day of Multisports!**

The **Color'ado® Multisports Covered enclosures** encourage people to play team sports and are the ideal place to host other sport and cultural events – all year round!

- **All the benefits of outdoor sport without the drawbacks:**

The special **Color'ado® Multisports** cover gets people enthusiastic about sport when it's raining and boosts energy on sunny days.

- **A splendid exclusive* design** with gentle, rounded shapes.

- **Total quality at all times:** the translucent cover provides natural ventilation and lighting.

- **The ideal investment:** extremely cost-effective in comparison with other equipment (football pitch, gym, etc.).

- A modular, scalable concept:

the **Color'ado® Multisports** Covered enclosure is suitable for almost any site, environment and budget. It can even be installed in several phases.

* registered designs, patented systems

Technical benefits:

1. An innovative construction concept:

- the **Color'ado®** cover comprises a steel/aluminium frame and a stretched textile membrane.
- the frame's side posts form part of the covered multisports enclosure structure (no superimposed posts and no overhangs).
- the 2 end cover modules brace the unit as a whole (no metal bracing arms or cross-pieces).
- the stretched textile membrane offers multiple benefits: translucent, acoustically designed and self-cleaning.

2. Exceptionally robust: with a galvanised steel and aluminium frame.

3. 10-year guarantee on the metal frame.

4. Complete safety:

the entire structure complies with NV65 rules and is suitable for places with the highest winds (zone 3 areas).

5. Promoting sustainable development:

the structure is made from materials renowned for their longevity, such as steel, aluminium and the textile membrane.

* registered designs, patented systems

Meeting Point

"Our world begins here"

"A place to call our own" is something we hear teenagers call for all the time. But they often don't get what they ask for. Yet this is precisely what teenagers need – somewhere they can gather with their peers.

Husson's designers have created Color'ado® Meeting Point equipment especially for the 12-17 age group. An original range of shelters and furniture.

- Teenagers generally make it their own in no time, and use it as an original and user-friendly meeting place that is open, yet sheltered from the elements. And they treat it with respect.
- Youngsters love its appearance, colours and design.
- The Meeting Point shelters are guaranteed to be exceptionally hard-wearing, featuring the very best materials such as galvanised steel and stainless steel for frame components.
- Simple and cost-effective to maintain.

*Registered designs, patented systems

JME-0009 Covered terrace

JME-0010 Terrace

Terraces are primarily designed for spectators. But the evidence shows that, in some cases, players and athletes also use them to rest before and after exercising, and for stretching! **Husson's designers** have therefore designed original, new pieces of furniture that take these uses into account – and they are perfectly suited to teenagers. Combined with a Multisports enclosure, basketball hoop, fitness area, outdoor table tennis tables, and even a table football table, **the Color'ado® mini terrace** is the perfect addition to your sports facility.
