

2026-2027 Price List

Fiber must be 3 inches minimum for spin orders

All prices are based on intake weight and include tumbling, washing, picking and carding. Should you choose a spin order it will also include spin, ply, steam/set and skeining to your choice of yardage. If you prefer yarn cakes instead of skeins (no extra charge). If you require cones that is an extra. This is to provide you with a clear and easy method to calculate your estimated cost from start to finish. ***Please note: intake orders for new clients are a minimum of 50 pounds. A 50% deposit of your estimate is due on drop off and the balance on completion.***

Roving (all wool types)	\$20.00 /lb standard size \$22.00/lb handspun \$24.00/pencil roving
Batts (wool)	\$20.00 per pound for 26 or 36 inches wide
Roving/batts (Huacaya)	\$26.00 /lb
Spinning all wool types	\$34/lb (aran, worsted, DK, sport) \$36/lb 3 ply any weight
Alpaca	\$36/\$38 per lb 2 or 3 ply \$40/\$42/ fingering weight (based on spinner time)
Blending	SURI (100% with zero adhesive) \$41/lb aran, worsted, DK, sport only
Custom Knitting	From our locally purchased fiber or you provide it \$5.00 per pound
Wet Felting	Ask to see our portfolio from local knitters. You use our yarn but pay them directly. Your finished item is shipped from the mill.
Dehairing	Ask
Extra Wash	\$10/per pound
Cones	Extremely lanolin heavy breeds will require an extra wash at \$5.00/lb
	\$2.00 per cone If you return your cones with the next order it is 50 cents.

Due to the high cost of diesel we can no longer return ship yarn free to new clients. We will honor free shipping for those that already have their wool in line for processing.

Discounts 2026-2027 ONLY

Returning clients will automatically receive a 10% discount as a thank you for your patience as the mill had to be moved which impacted our ability to operate for months.

Terms of Service

Fiber with scurf, bugs, excessive vegetable matter will not be accepted. No fecal tags or urine soaked fleeces. If we see moth eggs in your fiber it will go outside and be placed into the recycling pile. If you send fiber in shrink bags they will be returned with your yarn at the bottom of the box. Yarn is done by twist angle of your choice, designated weight (fingering, sport, double knit, worsted, bulky ONLY not by ounces). Yarn is

measured by yards whether on cones, cakes or hanks. So if you have a preferred type of yarn you must include a sample to get back what you desire.

While we do our best to have a reasonable raw fiber to yarn time there are things that are beyond our control- people not showing up to work, equipment failures, weather (for example when the old location flooded every time it rained) or fiber that looked great but will not run on the big spinner and adds weeks onto a schedule using the small spinner. As our current location serves all our power and water needs we are working 13 days on and 1 day off in order to clear all the wool that came in the past ten months so your email or text may not be answered straight away. We are currently absorbing the staggering increase prices for soap, spinner oil and all the things that keep the mill humming along.

Please note: under no circumstances will we accept any fiber from another mill. Every single order we took in last year that was supposed to be 'ready to spin' was in fact dirty, full of VM or had to be recarded which over a number of orders added unexpected months to our schedule putting other clients further back.

Any changes to your work order after it has begun must be done in writing via email for our records. If we find your fiber is not suitable for any stage of the processing you will be notified and can choose the path forward. These are our terms and conditions. By hiring the mill to process your fiber you acknowledge and accept these terms and conditions. Further-we reserve the right to refuse service to anyone.
