HOW TRAILS ARE FUNDED
 All funding for snowmobile Grant-in-Aid (GIA) trails comes out of the snowmobiler's pocket. In other words, we pay our own way. There are three funding mechanisms for trails. First, the registration fees that you pay on your snowmobile; second, the trail pass fees paid by Minnesota snowmobilers, as well as snowmobilers from other states that come to Minnesota to enjoy our winter recreation opportunities; the third, the tax you pay to purchase gasoline for your sled supports our trails.
 The amount appropriated by the legislature to fund the snowmobile program for June 30, 2010, and June 30, 2011, is \$14.6 million. These funds are available from the gas tax, snowmobile registration and trail permit receipts. Of that, \$8.4 million is paid to groom and maintain approximately 21,000 miles of trails through the GIA program and the balance goes to the Department of Natural Resources program administration, enforcement and grooming and maintenance of approximately 2,000 miles of state snowmobile trails. No general fund dollars pay for the snowmobile program.
 The grants to the clubs provide reimbursement for a portion of their operating costs. The grants are paid on a per mile basis to the clubs based on the area of the state where the trails are located. The clubs provide the volunteer labor necessary to do the maintenance on the trails.
