Electronic Devices and Digital Evidence

Vista Law Enforcement Training and Consulting, LLC, in cooperation with **????**, has scheduled this **8-hour POST-approved training program**, titled **“Electronic Devices and Digital Evidence.”** This training program is presented by both current and retired law enforcement detectives and supervisors/commanders who are experts in collecting digital/electronic forensic evidence. Topics include:

- What electronic devices and digital evidence are, how to preserve it, and how to process it
- Pertinent case law and related state statutes on electronic devices and digital evidence
- Various types of video surveillance (Ring, Blink, Traffic Cams, ATM/banks, home/business surveillance, drones, Flock/LPR/RTCC)
- Cloud-based services and what information is needed to obtain information from these sources
- Cell phone devices, what electronic evidence is available for your investigation, what is needed to obtain that information, and how to seize that evidence
- Geofencing, what evidence is available for your investigation, what is needed to obtain that information, and how to analyze that evidence
- Digital records and geofence retention schedules
- Vehicle digital evidence, what evidence is available, and how to seize that information
- IP addresses and email headers, what electronic evidence they have available for your investigation, and how to obtain that information
- Demonstrate, through case studies, identification of devices and analyzing information provided by those devices to develop further leads in case investigations

This program is designed for all law enforcement officers, investigators, and others responsible for collecting and analyzing this information. **Attendees should bring a laptop computer with Microsoft Excel that can be used for the course.**
