Vista Law Enforcement Training and Consulting, LLC, in cooperation with ????, has scheduled this **16-hour POST-approved training program**, titled **"Fire and Arson Investigations for First Responders."** This training program is presented by both current and retired law enforcement detectives, supervisors/commanders, firefighters, and crime scene investigators who are experts and have decades of experience investigating these types of incidents. Topics include:

- Duties of the first responding law enforcement officers and fire personnel concerning examining the fire scene to identify if a fire is considered suspicious
- Interviewing tactics of the property owner(s) and/or the person(s) discovering/reporting a fire
- Defining and discussing the terms "Cause" and "Area of Origin" of a fire
- Different types of chemicals, accelerants, and materials that are utilized by individuals who are responsible for deliberately starting/setting a fire
- Specific locations in a building or structure where fires typically occur, including electrical panels, electric outlets, and areas where combustible chemicals, accelerants, or materials are stored
- Examining the scene of an explosive-related incident, including determining the type of device utilized, where the device was located, and what type of evidence can be located
- Dynamics of fire, including how the movement of a fire through a building or structure can assist in determining the cause and area of origin
- Roles of Medical Examiner/Coroner and Forensic Anthropologist related to thermal deaths

This program is designed for all law enforcement officers, investigators, fire personnel, and other first responders with specific knowledge and skills in documenting fire/arson scenes, interviewing witnesses, collecting and analyzing physical evidence, and interrogating witnesses/suspects. A portion of the course is practical exercises through videos and role-play scenarios.
