?????, ?????, MO ?????

### Program Overview

Vista Law Enforcement Training and Consulting, LLC, in partnership with the ????? Police Department, presents this comprehensive training program. This course is taught by experienced forensic scientists, crime scene investigators, homicide detectives, and death investigators with decades of experience.

### Training Topics

- Recognize and interpret bloodstain patterns, including spatter, droplets, smears, transfers, cast-off, misting, and saturation stains
- Thoroughly locate, document, collect, and preserve blood evidence for investigative and courtroom use
- Utilize BlueStar, Luminol, and other chemicals to detect blood evidence not visible to the naked eye
- Understand laboratory analysis methods used by forensic scientists to examine blood evidence
- Analyze real-world homicide and death investigation case studies handled by course instructors
- Perform hands-on practical exercises in bloodstain identification, documentation, and evidence collection
- Prepare clear, defensible crime scene and investigative reports involving blood evidence
- Apply bloodstain analysis principles to the five manners of death in death investigations

### Who Should Attend

- ✓ First responders
- ✓ Criminal investigators/detectives
- ✓ Crime scene investigators/technicians
- ✓ Anyone tasked with locating, documenting, seizing, and analyzing blood evidence
