Basic Crime Scene Investigations

Vista Law Enforcement Training and Consulting, LLC, in cooperation with **????**, has scheduled this **24-hour POST-approved training program, titled "Basic Crime Scene Investigations."** This training program is presented by current and retired law enforcement personnel who are crime scene investigation experts. Topics include:

- Basic involvement of forensic science in law enforcement and policing capacities
- Role of the crime scene investigator in forensic investigations
- Six steps to crime scene processing, including "Methodology Assess, Observe, Document, Search, Collect, and Process/Analyze"
- Crime scene photography and the proper methods, procedures, and techniques in documenting a crime scene through photo analysis
- Proper functions of the specific department-issued crime scene cameras
- Proper methods in the processing and recovery of fingerprint evidence
- Proper methods in the processing and seizing of latent blood and bloodstain evidence
- Touch DNA and how to properly process and collect this type of physical evidence
- Proper methods to process various types of crime scenes and seize physical evidence using mock crime scene scenarios, utilizing various photography, fingerprint lifting, and evidence collection techniques discussed and demonstrated in class

This course is designed and intended to teach commissioned peace officers, detectives, and those responsible for investigating and processing crime scenes to become knowledgeable and proficient through comprehensive and interactive training modalities. Classroom, demonstration, and practical application exercises are utilized. **Attendees are asked to bring their department-issued cameras.**
