Program Overview

Vista Law Enforcement Training and Consulting, LLC, in partnership with the ????? Police Department, presents this comprehensive training program. This course is taught by experienced forensic scientists, crime scene investigators, homicide detectives, and death investigators with decades of experience. **Attendees should bring their department-issued cameras.**

Training Topics

- Advanced laboratory processing and analysis of physical evidence.
- Bloodstain pattern analysis with practical, real-world application.
- Use of Bluestar® and luminol products to locate latent blood and biological evidence.
- Advanced digital crime scene photography techniques, including proper camera settings, lighting, composition, and documentation of evidence.
- Courtroom testimony techniques for crime scene investigators, including depositions and criminal and civil proceedings.
- Effective coordination between crime scene investigators and investigative personnel.
- Scenario-Based Practical Application (fingerprint lifting, DNA, biological, trace, and ballistic evidence).

Who Should Attend

- ✓ First responders
- ✓ Criminal investigators/detectives
- ✓ Crime scene investigators/technicians
- ✓ Anyone responsible for initial scene control and evidence preservation
