Advanced Crime Scene Investigations

Vista Law Enforcement Training and Consulting, LLC, in cooperation with **????**, has scheduled this **16-hour POST-approved training program**, titled **"Advanced Crime Scene Investigations."** This training program is presented by current and retired law enforcement personnel who are expert forensic scientists, crime scene investigators, homicide detectives, and death investigators. Topics include:

- Advanced tactics and techniques in the "seizing" of fingerprint evidence, biological evidence, trace evidence, DNA evidence, and ballistic evidence from crime scenes, including the locating, seizing, and on-scene analysis of these types of evidence in a practical training exercise
- Advanced tactics and techniques in the "processing" of fingerprint evidence, biological evidence, trace evidence, DNA evidence, and ballistic evidence at the "Police Crime Laboratory"
- Bloodstain pattern analysis at crime scenes, including in a practical training exercise
- "Bluestar" and other available luminol products while explaining the use of Bluestar in the locating of blood or other biological evidence, including its use in a practical training exercise
- Proper tactics and techniques in the crime scene investigator testifying in depositions, motions to suppress, preliminary hearings, grand juries, and civil and criminal court proceedings
- Investigative interactions between crime scene investigators and other on-scene investigators

This program is designed for all first responder personnel responsible for processing crime scenes to become knowledgeable and proficient through comprehensive and interactive training modalities. Classroom, demonstration, and practical application exercises are utilized. Attendees should bring their department-issued cameras.
