Advanced Homicide Investigations

Vista Law Enforcement Training and Consulting, LLC, in cooperation with **????**, has scheduled this **32-hour POST-approved training program**, titled **"Advanced Homicide Investigations."** This training program is presented by current and retired first responder personnel who are expert forensic scientists, crime scene investigators, coroners/medical examiners, homicide detectives, and supervisors/commanders. Topics include:

- Investigative procedures and duties of the lead investigator, secondary investigators, and those assisting detectives at the scene of a homicide and during the continued investigation
- Duties of the homicide supervisor and crime scene investigators at the homicide crime scene
- Proper way to document the homicide crime scene, both in a scene diagram and in narrative form
- Purpose of an autopsy and toxicology reports and interpretation of the medical findings
- Roles of the Forensic Anthropologist, Entomologist, and Odonatologist
- Information that needs to be included in a homicide report for successful prosecution
- Proper procedures in identifying, processing, and packaging physical evidence
- Procedures and techniques specific to evidence submitted to the "Crime Lab"
- Using geofencing, social media, and other cyber-related techniques in homicide investigations
- Specialized tactics and skills utilized in the interview and interrogation regarding homicides

This program is designed for all law enforcement personnel to provide specific knowledge and skills in documenting homicide scenes, interviewing witnesses, collecting and analyzing physical evidence, interrogating suspects, and presenting their investigative findings in a detailed investigative report to the court system. In addition, attendees will analyze and discuss actual homicide cases.
