Basic Crime Scene Investigations for Death Investigators

Vista Law Enforcement Training and Consulting, LLC, in cooperation with **????**, has scheduled this **4-hour POST-approved training program**, titled **“Basic Crime Scene Investigations for Death Investigators.”** This training program is presented by current and retired law enforcement personnel who are expert forensic scientists, crime scene investigators, homicide detectives, and death investigators. Topics include:

- Overview of forensic science in death scene investigations
- Role death investigators play in forensic crime scene investigations (CSI)
- Six steps to death scene processing: “Methodology Assess, Observe, Document, Search, Collect, and Process/Analyze”
- Death scene photography and the proper methods, procedures, and techniques in documenting the scene through photo analysis
- How to properly process and collect evidence at a death scene pertinent to death investigators
- Proper methods to process death scenes and seize evidence using mock death scene scenarios through photography and evidence collection techniques discussed/demonstrated in class

Coroners and medical examiners play a critical role in evaluating, documenting, and processing death scenes. This requires essential skills and assets specific to death investigators. This course will provide death investigators with comprehensive information that delves into the crucial aspects of the investigation process surrounding fatalities. Classroom, demonstration, and practical application exercises are utilized. **Attendees should bring their department-issued cameras.**
