

American Income Life

Legacy Will Kit Program

Last Will & Testament

Help protect what you've built. American Income Life's no-cost will kit helps you decide who will take care of your family, leave all you've worked for to those you love, and secure your future wishes.

It is VERY important to have a will. If you don't have one, the state will determine who gets your belongings, according to applicable law. This process is called intestate succession and it happens when someone dies without a valid will in place.

Our Will kit is a legally binding document (after being notarized) that keeps your assets from being frozen in probate for up to 2 years.

Final Expense Benefit (cremation & earth burial)

Pay Check Protection (monthly income replacement)

Debt Protection (mortgage, credit card, medical debt left behind)

College Education (set up money for children to use for college)

Head Start Program (give your child or grandchild a head start in life)

Ask about our safety kits to help protect your children & grandchildren!
