PERSONAL STATEMENT

Everyday my goal is to become better regarding my academics, athletics, and as a person. Reminding myself of these helps me maintain a clear path of priorities to reach my goals. I am learning new things every day and will always be optimistic of the things I can achieve. I understand what I put in, I get out and even sometimes I'll receive nothing at all. My efforts and attitude express who I am and my goals are the trajectory of where I want my life to lead me. But softball is a game of failure and regardless of how situations play out, I can only control myself and take it pitch by pitch. One of my goals is to play college softball. I know I can't play the game forever so I want to make the best of what I have now.
